## MISSOURI.

CAPITAL, JEFFERSON CITY.

Population of State, 3,106,665.  
 (U. S. Census of 1900.)

Number of Physicians, 7,587.

Missouri is part of the territory that was ceded to the United States under treaty dated April 30, 1803, and was known as the Louisiana purchase, and by Act of Congress was organized as the Territory of Louisiana, October 31, 1803, which, on March 26, 1804, was divided into the Territory of Orleans, which embraced all the territory south of the 33rd degree, and the District of Louisiana, from the 33rd degree north. The District of Louisiana was changed into the territory of the same name, March 3, 1805. The Territory of Louisiana was changed into the Territory of Missouri by Act of Congress dated June 4, 1812. On August 10, 1821, the territory was admitted to the Union as a state with 24 counties. As now constituted, the state comprises 114 counties and the city of St. Louis.

It is bounded on the north by Iowa, on the south by Arkansas, on the east by the Mississippi river, which separates it from Illinois, Kentucky and Tennessee, and on the west by Indian Territory, Kansas and Nebraska. This is

one of the most diversified of western states as to soil, products, climate and surface and extends through four and one-half degrees of latitude. The elevation of the land varies from 287 feet in the southeast to 3,000 feet at Cassville. The Mississippi forms its eastern frontier and the Missouri borders it for a long way on the west. A line drawn from Hannibal to the southwestern corner of Missouri separates the prairie region of the north and west from the forest region on the east and south. North of the Missouri is a region of broken land with forests in the east and along the great rivers, and the rest is occupied by wide rolling prairies well watered and productive, and in effect a prolongation of the plains of Illinois and Iowa. Similar high grassy plateaus run west from the Ozark Mountains, and from the Mississippi to the Big Black. South of the Missouri the forests of the east are offset by these open prairies of the west, with large rivers, like the Osage and Gasconade, running northeast into the Missouri.

The Ozark Mountains run from the Missouri river east of the Osage, southwest into Arkansas and Kansas, changing from isolated hills and knobs to the high and arable tablelands of the west.

A large part of the state was originally covered with woodlands, oaks and

elms, hickories and maples in the north, huge cypresses and sycamores, cottonwoods, and gum-trees in the south, with scattered forests of red cedars and pines, pecans and persimmons. Great quantities of hardwood lumber are cut every year. The south counties contain immeasurable forests of yellow pine and live oak.

The Osage river is a noble stream flowing from Kansas to the Missouri river, navigated by steamboats to Tusculumbia (60 miles) and sometimes as far as Warsaw (170 miles). It has a yearly commerce of \$600,000 in railway ties, rafts of oak and walnut logs, and steamboat freights, which has greatly increased.

The climate is full of extremes, being devoid of moderating sea-air or sheltering hill ranges. It is dry, owing to the rapid evaporation; and the sky is usually clear and bright. The least rain falls in April.

bodily or mental infirmities, or engage in the practice of midwifery in the State of Missouri, except as hereinafter provided.

Sec. 2. The State Board of Health shall have general supervision over the registration of all practitioners of medicine, surgery and midwifery in this State.

Sec. 3. All persons desiring to practice medicine or surgery in this State, or to treat the sick or afflicted as provided in Section 1, of this act, shall appear before the State Board of Health at such time and place as the Board may direct, and shall there be examined as to their fitness to engage in such practice. All persons appearing for examination shall make application in writing to the Secretary of said Board thirty days before the meeting. They shall furnish satisfactory evidence of their preliminary qualifications, and shall also furnish evidence of good moral character. The medical examination may be made in whole or in part in writing, and shall be of elementary and practical character, but sufficiently strict to test the qualifications of the candidate as a practitioner, and shall embrace the subjects of anatomy, chemistry, physiology, pathology, therapeutics, obstetrics, gynecology, surgery, practice of medicine, medical jurisprudence and hygiene, and such other branches as the State Board may direct. The candidate shall be required to answer seventy-five per cent of such questions as are asked him before being granted a certificate: Provided, however, that the examination of any applicant in therapeutics shall be conducted by the member or members of said Board who represent the system of medicine of which such applicant has been a student. If there shall be no representative of the school or system of which the applicant has been a student, the examination in therapeutics shall be conducted by an examiner appointed for that purpose by the Governor of Missouri, but all examinations other than that in therapeutics shall be conducted as heretofore provided in this act. The Board of Health shall issue to such persons as they shall find, upon examination, to possess the requisite qualifications, a license to practice medicine and surgery in accordance with the provisions of this act, and the State Board of Health shall not be permitted to favor any particular school or system of medicine, but all applicants shall be subjected to the same examination and the same degree of proficiency shall be required of all. The Board shall examine persons applying for a license, although such persons cannot speak the English language, the applicant in all such cases to pay the expense of an interpreter satisfactory to the Board.

Sec. 4. Every person holding a license from the State Board of Health shall have it recorded in the office of the county clerk of the county in which he resides, and the record shall be endorsed thereon. And the clerk is authorized to charge a fee of one dollar for recording each license, to be paid by the person offering such license for record. Any person removing to another county to practice medicine or surgery shall have his license recorded in the county which he removes to, and the holder of said license shall pay said clerk of said county the usual fee for making the record. The county clerk shall keep in a book provided for that purpose a complete list of the licenses recorded by him with the date of issue. Any person neglecting for twenty days to record his license as in this section provided, after entering upon the practice, shall be guilty of a misdemeanor, and on conviction thereof shall be fined not less than ten dollars nor more than fifty dollars, and on failure to record said license for thirty days after such conviction, such person shall be liable to a fine of not less than one hundred dollars.

Sec. 5. Any person, except physicians now registered, practicing medicine or surgery in this State, and any person attempting to treat the sick or others afflicted with bodily or mental infirmities without first obtaining a license from the State Board of Health, as provided in this act, shall be deemed guilty of a misdemeanor and punished by a fine of not less than fifty dollars nor more than five hundred dollars, or by imprisonment in the county jail for a period of not less than thirty days nor more than one year, or by both such fine and imprisonment for each and every offense, and treating each patient shall be regarded as a separate offense. Any person filing, or attempting to file, as his own, a license of another or a forged affidavit of identification, shall be guilty of a felony, and, upon conviction thereof, shall be subject to such fine and imprisonment as are made and provided by statutes of this State for the crime of forgery in the second degree. Said fines to be turned into the State treasury when collected.

Sec. 6. In order to provide the means to carry out and maintain the provisions of this act, the said Board shall charge each person applying to and appearing before it for examination for a license to practice medicine and surgery, a fee of fifteen dollars, and should such examination prove unsatisfactory and the State Board refuse to issue a license thereon, the applicant failing to pass such examination may return at any meeting within the next twelve months thereafter and be examined without extra charge, but no temporary license shall be issued to such person. All fees so received from applicants for license shall be paid into the State treasury and shall be held by the State Treasurer as a separate fund to be disbursed only in payment of expenses of maintaining said Board of Health, and said fund is hereby appropriated for said purpose, and no other money shall be paid out of the State treasury for the provisions of this act. The State Auditor shall issue his warrant on the State Treasurer for payment out of said fund on the certificate of the President and Secretary of the State Board of Health.

Sec. 7. The Board may refuse license to individuals guilty of unprofessional or dishonorable conduct, and they may revoke licenses for like causes, after giving the accused an opportunity to be heard in defense before the Board. Habitual drunkenness or excessive use of narcotics or producing criminal abortion shall be deemed unprofessional and dishonorable conduct within the meaning of this section, but this specification is not intended to exclude all other acts for which licenses may be revoked.

Sec. 8. Whenever in this act is provided that any duty or service shall be performed by any county clerk, such duty or service in the city of St. Louis shall be performed by the Health Commissioner, as if said officer was specially named to perform these duties and services, and said officer shall receive the same compensation therefor as this act provides shall be paid to the ~~county clerk~~. ~~Provided further,~~

that whenever in this act the word county is used it shall include the city of St. Louis the same as if said city were specially named.

Sec. 9. It is not intended by this act to prohibit gratuitous service to and treatment of the afflicted, and this act shall not apply to commissioned surgeons of the United States Army, Navy and Marine Hospital Service.

Sec. 10. It shall be unlawful for any person to practice midwifery in this State before receiving a license to do so. Every person desiring to practice midwifery as a profession shall make application to the State Board of Health for examination, and pay a fee of five dollars. And upon passing an examination satisfactory to said Board upon the subject of obstetrics, shall receive a license to practice as above provided. It shall be unlawful for any person licensed as a midwife only, to engage in any other branch of medical practice or to advertise herself as a doctor, doctress or physician, or to use any letters before or after her name on a sign or otherwise, indicating that she is authorized to, or does, engage in any other branch of medical practice. And any person practicing midwifery as a profession or advertising herself as a midwife, without first obtaining the license aforesaid, and any licensed midwife who shall do any acts in this section prohibited, shall be deemed guilty of a misdemeanor, and, upon conviction, shall be punished by a fine or not less than ten dollars nor more than fifty dollars, or by imprisonment in the county jail not more than two months nor less than ten days. Acting in each case shall be deemed a separate offense. Nothing in this section shall be so construed as to require women practicing midwifery to obtain a license when said women do not practice midwifery as a profession, and do not make any charge for their services.

Sec. 11, Article 1, of Chapter 128, Revised Statutes of Missouri, 1899, is hereby repealed, and this act enacted in lieu thereof, and nothing in this act shall be so construed as to repeal any other existing article or law.

Approved March 12, 1901.

## AMENDED ACT OF 1903.

"Sec. 9. It is not intended by this act to prohibit gratuitous service to and treatment of afflicted, and this act shall not apply to commissioned surgeons of the United States, Army, Navy and Marine Hospital Service, nor to any student who has matriculated in a medical college on or prior to March 12, 1901; and it shall be the duty of said Board of Health on receiving a fee of fifteen dollars from said student to issue to him a license to practice medicine when said student presents a diploma from any medical college of this State."

Approved March 21, 1903.

## AMENDMENTS TO CHAPTER III, ARTICLE 1, OF THE REVISED STATUTES OF 1899—LOCAL BOARD OF HEALTH.

Sec. 7529a. Be it enacted by the General Assembly of the State of Missouri, as follows:

Sec. 3. All persons desiring to practice medicine or surgery in this State, or to treat the sick or afflicted as provided in section 1 of this act, shall appear before the State Board of Health at such time and place as the Board may direct, and shall be examined as to their fitness to engage in such practice. All persons appearing for examination shall make application in writing to the Secretary of said Board thirty days before the meeting. They shall furnish satisfactory evidence of their preliminary qualifications, and shall also furnish evidence of good moral character. The medical examination may be made in whole or in part in writing, and shall be of elementary and practical character, but sufficiently strict to test the qualifications of the candidate as a practitioner, and shall embrace the subjects of anatomy, chemistry, physiology, pathology, therapeutics, obstetrics, gynecology, surgery, practice of medicine, medical jurisprudence and hygiene, and such other branches as the State Board may direct. The candidate shall be required to answer seventy-five per cent of such questions as are asked him before being granted a certificate: Provided, however, that the examination of any applicant in therapeutics shall be conducted by the member or members of said Board who represent the system of medicine of which the applicant has been a student, the examination in therapeutics shall be conducted by an examiner appointed for that purpose by the Governor of Missouri, but all examinations other than that in therapeutics shall be conducted as hereinbefore provided in this act. The Board of Health shall issue to such persons as they shall find upon examination to possess the requisite qualifications a license to practice medicine and surgery in accordance with the provisions of this act, and the State Board of Health shall not be permitted to favor any particular school or system of medicine, but all applicants shall be subjected to the same examinations and the same degree of proficiency shall be required of all. The Board shall examine persons applying for a license, although such persons cannot speak the English language, the applicant in all cases to pay the expenses of an interpreter satisfactory to the Board. And it is further provided that the said State Board of Health may at their discretion admit without examination legally qualified practitioners of medicine who hold certificates to practice medicine in any State or Territory in the United States, or the District of Columbia, with equal requirements to the State of Missouri, and that extend like privileges to legally qualified practitioners from this State, upon the applicant paying a fee of twenty-five dollars.

Approved April 10, 1905.

## RECIPROCITY RULES.

Qualification No. 1. That a certificate of registration showing that an examination has been made by the proper Board of any State, on which an average grade of not less than seventy-five per cent was awarded, the holder thereof having been, at the time of said examination, the legal possessor of a diploma from a medical college in good standing in the State where reciprocal registration is sought, may be accepted in lieu of examination, as evidence of qualification: Provided, that in case the scope of said examination was less than that prescribed by the State in which reg-

istration is sought, the applicant may be required to submit to a supplemental examination by the Board thereof in such subjects as have not been covered.

Qualification No. 2. That a certificate of registration or license, issued by the proper Board of any State, may be accepted as evidence of qualification for reciprocal registration in any other State: Provided, the holder of such certificate had been engaged in the reputable practice of medicine in such State at least one year: Provided, also, that the holder thereof was, at the time of such registration, the legal possessor of a diploma issued by a medical college of four years' requirements, in good standing in the State in which reciprocal registration is sought, and that the date of such diploma was prior to the legal requirements of the examination test in such State.

The Board reserves the right to make such changes as it may deem wise and just, under the provisions of the law.

Qualification No. 3. As evidence of moral and professional character after graduation and licensure, each applicant shall present, from his former home, to the State Board in which registration is sought, satisfactory evidence that he has been, for at least one year, a member in good standing of the county, district or state medical organization of the school or system of practice to which he belongs, and a certificate of recommendation issued to him by vote at a regular meeting of the society of which he is a member, that he is worthy of the benefits of registration anywhere, and such certificate shall be treated as a part of such application and considered in connection with the other evidence presented.

Note: No application will be considered unless the diploma, certificate and fee accompany it. They should be sent by express, prepaid to the Secretary of State Board of Health, Warrensburg, Missouri. The fee is \$25.

Every blank must be carefully filled and the affidavit should be made before a notary or other officer who has power to affix his seal. Physicians not in good standing in their respective county and state societies, and whose professional records are not above reproach, or who advertise need not apply.

Missouri reciprocates with the following named States: Indiana, Michigan, Nevada, Maine, Minnesota, Iowa, Colorado, Kentucky, Wisconsin, Wyoming, Georgia, Virginia, rule No. 1; West Virginia, South Carolina, rule No. 1; North Dakota, rule No. 1; Utah, Nebraska, Texas, Rule No. 1; New Hampshire.

Those marked rule No. 1 indicate reciprocity by examination only; those not so marked have reciprocal relations through diploma or examination, provided the diploma was issued prior to March 12, 1901.

# BONNER SPRINGS LODGE

## BONNER SPRINGS, KANSAS

(A Suburb of Kansas City, Mo.)

A pleasant home for nervous invalids and narcotic habitues. The attention of the medical profession is respectfully called to the advantages offered at this institution in the care and treatment of Hysteria, Neurasthenia, Melancholia, Morphinism, Inebriety and the various psychoses. For the disorders mentioned a skillful combination of the family plan, or home treatment, with the appliances and regime of a first-class sanitarium are to be found at the Lodge. Far removed from the dust and heat of the city, the clang of car bells and the many distractions of a commercial center, we have a handsome and commodious structure of fifty rooms, with 500 feet of broad verandas, steam heat, sanitary plumbing, baths, electricity, abundant water of the finest quality, a high and healthful location, a beautiful lawn, a magnificent view of the Kaw river and valley, and a park of eighty acres, containing many medicinal springs of undoubted value.

The Lodge is under the daily personal supervision of Dr. M. P. Sexton and Dr. H. C. Hays, who are members of the regular medical profession and devote their exclusive attention to nervous and mental diseases.

Particular attention is called to the fact that a nurse is assigned to each patient. Although this involves some additional expense, experience warrants the statement that the investment is a good one, individual attention being the keynote to success in these cases.

The Lodge is conducted upon strictly ethical lines, no patronage being solicited except through the profession.

The charges are as low as may be obtained at any institution of similar character and equal grade.

## The Kihlberg Bath House and Sanitarium

Strictly Swedish Massage  
by Graduate Masseurs

OPEN THE YEAR ROUND

Original Sulpho-Saline Water  
for Bathing Purposes.

### A Modern Institution Thoroughly Equipped for the Care of Medical and Surgical Cases

The Sanitarium is under the direction of a medical director assisted by a staff of well known and resident physicians; the patients being at liberty to select their physician.

An Aseptic Operating Room, modern in all its appointments, has been installed in the institution; and cases needing surgical attention are here assured of the best care. Experienced Surgical Nurse in charge.

The management has also the exclusive use of the Famous Sulpho-Saline Water for bathing purposes, and operates The Famous Sulpho-Saline Karlsbad Baths, where every form of hydiatic procedure is employed. For massage treatment the Swedish treatment predominates, and the electric vibrator, the best mechanical apparatus known to science is used. It is true that in all cases of Rheumatism, Bright's Disease and Uric Acid Diathesis in every form, our baths and waters invariably produce benefits, and in most cases an absolute cure. But even more wonderful results have been achieved by the treatment in Diseases of the Stomach, Digestion and Nerves, especially when stomach and nervous troubles exist at the same time, or are mutually causative. Many people whose stomachs and nerves are worn out—come here for quick and adequate repairs.

# **POLK'S DENTAL REGISTER**

OF THE

## **United States and Canada.**

---

**This is positively the only National Dental Directory published.**

---

Over 36,000 Dentists, arranged by States, Territories and Provinces, with Post-office address and College and year of Graduation.

All the Existing Dental Colleges in the United States and Canada, with Location, Faculty, etc.; also extinct Dental Colleges.

The various Dental Societies and Dental Journals.

Synopsis of Laws regulating practice of Dentistry in each State, Territory and Province.

A Descriptive Sketch of each State, Territory and Province.

It is the only publication of the kind giving an alphabetical list of all Dentists and a reference to name where it appears with post-office address and college information.

There is no more direct or economical way of reaching the Dentists of the United States and Canada than by an advertisement in the Register, or if you wish to circularize, the Register presents the list in convenient form for addressing. \*

## DR. E. H. THRAILKILL'S HOSPITAL FOR THE TREATMENT OF DISEASES OF THE RECTUM

**T**HE only strictly ethical hospital for this special line of work in the West. It is equipped with a modern operating room and all appliances for this special line of operative work.

Dr. Thrailkill devotes himself exclusively to this specialty. His patients are under his supervision day and night, as he resides in his hospital.

The number of patients being limited makes the hospital at once private and homelike.

The rooms are large, light and well ventilated.

Trained Nurses in attendance.

## THE WILLOWS MATERNITY SANITARIUM.

Strictly Ethical. Regular Physicians  
Invited to Care for Their Own Patients

A Sanitarium Home especially adapted to the care of **Unfortunate Girls and Women who wish to avoid Publicity.** Cases not requiring seclusion also admitted, with separate accommodations furnished.

Neat, airy, comfortable rooms; new furnishings and hospital equipment; modern sanitary conveniences. A recent doubling of capacity has materially added to the comforts and advantages offered patients, including a parlor and reading room for patients' exclusive use.

The Sanitarium is home-like. Patients may enter and make it their home as long before confinement as desired. Each is prepared for sickness while in waiting. Elevating influences and good moral atmosphere. **Good homes are found for the babies when adoption is arranged for.**

# **ST. LOUIS UNIVERSITY SCHOOL OF MEDICINE**

(MARION SIMS - BEAUMONT)

## **St. Louis, Missouri**

Offers a course in medicine consisting of laboratory, didactic and clinical instruction, exercises, demonstrations and elective work, meeting the highest modern requirements of medical education.

Abundant clinical material is afforded by two large general dispensaries, obstetric dispensary and nine hospitals, with a capacity of 1,000 beds, under the direction of members of the Faculty, in addition to the city institutions.

The work of the first two years in Anatomy, Physiology, Embryology Chemistry, Pharmacology and Physiological Chemistry, Pathology and Bacteriology has been placed upon a University basis. The instructors holding chairs in these departments devote their entire time to teaching and research.

## MONTANA.

CAPITAL, HELENA.

Population of State, 243,329.

(U. S. Census of 1900.)

Number of Physicians, 391.

The extensive area within the confines of Montana was a portion of Louisiana, as claimed and occupied by France, and became an integral part of the United States when President Jefferson

concluded his big real estate deal with the first Napoleon, acquiring ownership of that immense tract of territory, mostly unexplored, and which is now the garden and treasure vault of the world. The portion of the purchase known as Montana became afterwards, as new states and territories were carved out, a part of Missouri, Oregon, Nebraska, Dakota and Idaho, and was created into a separate territory, with its present

boundaries, May 26, 1864, and admitted as a state November 8, 1889.

The population, according to the United States Census of 1900, is 243,329, as compared with a population in 1890 of 132,159, showing an increase during the decade of 111,170, or 84.1 per cent. The total land surface of Montana is, approximately, 145,310 square miles, the average number of persons to the square mile at the censuses of 1890 and 1900 being as follows: 1896, 0.9; 1900, 1.7. It extends from 104 degrees to 116 degrees west longitude, and from 44 degrees 25 minutes to 49 degrees north latitude, and is bounded on the north by the Canadian provinces of Alberta and Assiniboia, on the east by the Dakotas, on the south by Wyoming and Idaho, and on the west by Idaho. The great area of the state can be better appreciated by giving its width north and south as 275 miles, and its average length east and west as 535 miles, and calling attention to the fact that it is the third largest of the states of the Union. Less than one-third of its area is occupied by the Rocky Mountains, and the lesser ranges and spurs, and the other two-thirds is about equally divided between range and agricultural lands. Besides the three great rivers—the Missouri, the Yellowstone and the Columbia—there are a number of other noble streams, notably the Jefferson, Madison, Musselshell, Gallatin and Deer Lodge rivers, as well as many small rivers and thousands of mountain streams. The state has a most exhilarating and healthful climate, abundance of the purest water and numbers of thermal springs impregnated with many healing qualities. The climate is milder than the latitude and elevation would seem to indicate the mean annual temperature as observed at Helena being 43.04 degrees, that of the summer 70.28 degrees, and of the winter 19.16 degrees. For list of Medical Colleges, see page 152.

**SYNOPSIS OF MEDICAL LAWS OF MONTANA.**

Provision is made for a Board of Medical Examiners, consisting of seven members. Every person hereafter wishing to practice medicine or surgery in any of the depart-  
ments in this state shall apply to said board for a certificate so to do. Every person  
applying shall present his or her diploma to the said Board of Examiners for verifi-  
cation as to its genuineness; if the diploma is found genuine, and is issued by a med-  
ical school legally organized and in good standing whose teachers are graduates of a  
legally organized school, which facts said Board of Examiners shall determine, and if  
the person presenting and claiming said diploma be the person to whom the same  
was originally granted, at a time and place designated by said board or at a regular  
meeting of said board, said applicant shall submit to an examination in the follow-  
ing branches, to-wit: Anatomy, Physiology, materia medica, therapeutics, practice of  
medicine, surgery, obstetrics, diseases of women and children, diseases of the nerv-  
ous system, diseases of the eye and ear and present evidence of having attended four  
courses of lectures of at least six months each, but such evidence of having attended four  
courses of lectures shall not be required of the applicants graduating prior to July  
1, 1898; said board shall cause such examination to be both scientific and practical,  
and of sufficient thoroughness and severity to test the candidate's fitness to practice  
medicine and surgery; when desired, such examination may be conducted in the pres-  
ence of the dean of any medical school, or the president of any medical society in this  
state. After examination, such board, if the candidate has been found qualified, shall  
grant a certificate to such candidate to practice medicine and surgery in the State of  
Montana; which said certificate can be granted only by the consent of not less than  
four members of said board, and which said certificate shall be signed by the presi-  
dent and secretary of said board and attested by the seal thereof; provided, however,  
that in all cases where an applicant for a certificate under this section shall produce  
an exhibit to said Board of Examiners a certificate from a Board of Medical Exam-  
iners, duly appointed and existing under the laws of any state of the United States  
and recognizing certificates or licenses from this state certifying to the fact that the  
person presenting such certificate is duly and well qualified to practice medicine and  
surgery in the state issuing said certificate, and that said board issuing said certifi-  
cate has subjected the applicant to a thorough examination to ascertain this fact, or  
certifying to the fact that the person presenting such certificate is duly and well qual-  
ified to practice medicine and surgery in the state issuing said certificate; and to the  
further fact, if such is the case, that said applicant was exempt from examination  
under the provisions of the law of said state, by reason of his residence in said state  
in the active practice of medicine and surgery at the time of the passage in said  
state of said law requiring the examination of applicants to practice medicine and  
surgery; he or she may, at the discretion of said Board of Examiners upon paying  
the fee required of applicants for examination, and otherwise complying with all the  
requirements of this article, receive from said Board of Examiners a certificate to  
practice medicine and surgery within this state, and upon filing said certificate with  
the county clerk of the county in which he resides, he shall be a legally qualified  
practitioner of medicine and surgery in this state; provided, also, that during any  
period intervening between the sessions of said Board of Examiners, any person de-  
siring to practice medicine in this State may present his or her diploma to the  
president or secretary, who may issue a certificate good until the next  
regular meeting of said board; and provided further, that all  
physicians and surgeons who hold certificates granted by the now existing Board of

Medical Examiners, or who are now legally entitled to practice medicine and surgery in this state shall be exempt from the provisions of this section.

Every person obtaining a certificate from the board must, within sixty days from the date thereof, have the same recorded in the office of the county clerk in the county wherein he resides; if he removes from one county to another to practice medicine or surgery, his certificate must immediately be recorded in the county to which he removes. The county clerk must indorse upon the certificate the date of record, and he is entitled to charge and receive his usual fee for such services, the fee to be paid by the applicant.

This act shall not apply to midwives of skill and experience, commissioned surgeons of the United States Army and Navy in the discharge of their official duties, nor to physicians and surgeons in actual consultation from other states and territories.

Candidates for examination shall pay in advance to the Secretary of the Board of Medical Examiners a fee of fifteen dollars (\$15), which fee shall defray the entire expense of said candidates for examination before the aforesaid board of examiners. Anyone failing to pass the required examination shall be entitled to a second examination within six months, without fee.

## LIST OF PHYSICIANS

ARRANGED ALPHABETICALLY BY POSTOFFICES.

For Corrections and Names Received Too Late for Regular Insertion, see Supplement.  
Refer to Index for Location.

### ABBREVIATIONS:

R., Regular; H., Homoeopathic; Ecl., Eclectic; P. M., Physio-Medical; \*, No report received; §, Holds certificate of Examining Board; †, Legally authorized under the "years of practice" section of the act; ‡, Druggist; †, Dentist. R. F. D. 1, Rural Free Delivery No. 1.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

# NEBRASKA.

CAPITAL, LINCOLN.

Population of State, 1,068,539.

(U. S. Census, 1900.)

Number of Physicians, 1,766.

The soil of Nebraska came into pos-  
session of the United States April 30,  
1803, as part of the Louisiana purchase.  
It was a part of the Missouri territory  
most of the time until May 30, 1854, when  
it was formed into a separate territory  
and was admitted as a state March 1,  
1867. The population, according to the  
U. S. Census of 1900, was 1,068,539, as  
against 1,058,910 in 1890, representing an  
increase during the decade of 9,629, or  
0.9 per cent. The total land surface is

approximately 76,840 square miles, the  
average number of persons to the square  
mile at the censuses of 1890 and 1900  
being as follows: 1890, 13.8; 1900, 13.9.  
It extends from 40 degrees to 43 degrees  
north latitude, and from 94 degrees 25  
minutes to 104 degrees west longitude,  
and is bounded on the north by South  
Dakota, on the south by Kansas and  
Colorado, on the east by Iowa and Mis-  
souri, and on the west by Colorado and  
Wyoming. The climate is salubrious, the  
mean annual temperature as observed at  
Omaha being 49.28 degrees; that of sum-  
mer 74.26 degrees, and that of the win-  
ter 23.36 degrees.

Nebraska is part of that vast plain  
which extends along the eastern base of  
the Rocky Mountains and gently slopes

Nebraska

down towards the Mississippi river. The surface is flat or gently undulating. The soil consists for the most part of a black and porous loam, which is slightly mixed with sand and lime. The streams flow in deeply eroded valleys with broad alluvial bottoms of the greatest fertility, which are generally well timbered with cottonwood, poplar, ash and other deciduous trees. The uplands are undulating prairies, presenting an almost unlimited field for stock raising and wool growing.

Within the boundaries of Nebraska are vast areas of the most fertile and productive soil on the continent. It is nearly all arable and every acre is available either for pasture or farming. There is almost an entire absence of waste land. The Platte, Republican, Elkhorn, Loup and Niobrara are the principal interior rivers all moving from west to east or southeast. Each of these large streams has numberless tributaries. The bottom lands along the rivers are especially fertile, though hilly land is much preferred for general farming. A superior system of public schools, and an inexhaustible state fund from which to maintain them; churches in every village and almost every valley; railroads fairly gridironing the state, and a most invigorating and healthy climate combine to make Nebraska desirable in every sense of the term for a residence.

**I**S located in a section having the highest per cent. of health and the lowest per cent. of mortality of any known place in the civilized world. This institution is the only one in the central west with separate building situated in their own ample grounds, yet entirely distinct, and rendering it possible to classify cases. The one building being fitted for and devoted to the treatment of non-contagious and non-mental diseases; no others being admitted. The other, Rest Cottage, being designed for and devoted to the exclusive treatment of select mental cases, requiring for a time watchful care and special nursing.

Every modern requirement for health, every electric current useful in treatment of the sick, all kinds of baths in utmost perfection, hot air department.

Our corps of nurses is of the highest class. Masseurs and physical instructors carefully trained under our own supervision. A delightful place in which to get well and learn how to keep well. References furnished from any state in the union.

#### SYNOPSIS OF NEBRASKA MEDICAL PRACTICE ACT.

##### Who May Practice.

It shall be unlawful for any person to practice medicine, surgery or obstetrics or any of the branches thereof, in this State, without first having applied for and obtained from the State Board of Health a license so to do. Application therefor shall be in writing, and shall be accompanied by the examination fees hereinafter specified and with proof that the applicant is of good moral character. Applications from candidates who desire to practice medicine and surgery in any or all their branches shall be accompanied by proof that the applicant is a graduate of a medical school or college in good standing, as defined in Section eight (8) of this Article. When the application aforesaid has been inspected by the Board and found to comply with the foregoing provisions, the Board shall notify the applicant to appear before it for examination at the time and place mentioned in such notice. Examinations may be made wholly or in part in writing by the Board and shall be of a character sufficiently strict to test the qualifications of the candidate as a practitioner. The examination of those who desire to practice medicine and surgery in any or all commonly and generally required of candidates for the degree of doctor of medicine, their branches shall embrace those subjects and topics, a knowledge of which is commonly and generally required of candidates for the degree of doctor of medicine by reputable colleges in the United States. All examinations provided for in this act shall be conducted under rules and regulations prescribed by the Board, which shall provide for a fair and wholly impartial method of examination. It is also provided that examinations on practice of medicine and therapeutics shall be conducted by the member, or members, of the Board of Secretaries, who are of the same school of medicine as that of the applicant. And it is further provided, that the said State Board of Health, may at their discretion, admit, without examination, legally qualified medical practitioners, who hold certificates to practice medicine in any state with equal requirements to those of the State of Nebraska.

##### Medical School Defined.

The term medical school or college in good standing, shall be defined as follows, to-wit: A medical school or college requiring a preliminary examination for admission to its course of study in all the common branches and in Latin and the higher mathematics, which requirements shall be regularly published in all the advertisements and in each prospectus or catalogue issued by said school, which medical school or college shall also require as a requisite for granting the degree of M. D., attendance upon at least four courses of lectures of six months each, no two of said courses to be held within one year, and having a full faculty of capable professors in all the different branches of medical education, to-wit: Anatomy, physiology, chemistry, toxicology, pathology, hygiene, materia medica, therapeutics, obstetrics, bacteriology, medical jurisprudence, gynecology, principles and practice of medicine and surgery, and specially requiring clinical instruction in the two last named of not less than four hours per week in each during the last two courses of lectures; provided, That this four years clause shall not apply to degrees granted, or to be granted, prior to August, 1898.

##### Diplomas.

It shall be the duty of all persons intending to practice medicine, surgery or obstetrics in the State of Nebraska before beginning the practice thereof, in any branch thereof, to present his diploma to said board, together with his affidavit that he is the lawful possessor of the same, that he has attended the full course of study required for the degree of M. D. and that he is the person therein named. Such affidavit may be taken before any person authorized to administer oaths, and the same shall be attested under the hand and official seal of such official if he has a seal, and any person swearing falsely in such affidavit shall be guilty of perjury and subject to the penalty therefor.

If, upon investigation of the proofs submitted to the Board, and after the examination, as hereinafter provided, the applicant shall be found entitled to practice, there shall be issued to said applicant the certificate of said board under its seal and signed by its secretaries stating such fact, and it shall be the duty of the applicant before practicing to file such certificate or a copy thereof in the office of the county clerk in the county in which he or she resides or in which he or she intends to practice; such certificate or copy shall be filed by the county clerk and by him recorded in a book kept for that purpose, properly indexed, to be called the "Physicians' Register," and for such services the county clerk shall receive from the applicant the same fees as are allowed to the register of deeds for the recording of conveyances.

Sec. 19. Every holder of a diploma from a recognized medical college within the State of Nebraska, making application for an examination and certificate under the provisions of this act, shall pay to the Board of Secretaries prior to his examination the sum of ten (\$10) dollars. All other persons making such application shall pay to said Board the sum of twenty-five (\$25) dollars. All such fees shall be equally divided among the four Secretaries of the Board as full compensation for their ser-

vices and expenses. For the taking of any testimony each of the secretaries shall be entitled to charge and receive such fees as are provided for notaries public for similar services. No part of such fees shall be paid out of the state treasury.

This act shall take effect and be in force from and after August 1st, 1903.

## Special Rules of Board.

Each applicant for examination must present to the Board letters of recommendation from two registered physicians of the state or such others as may be satisfactory to the Board.

No medical school recognized by the Board unless said school is recognized by the Association of Medical Colleges of the School of Practice to which it belongs.

Applications must be on file at least ten days before the date of examination.

Rules of the Nebraska State Board of Health for Conducting Medical Examinations.

1. An examination is required of each and every one before a license is granted to practice medicine in Nebraska. The law requiring such procedure went into effect August 1, 1903, and will be enforced from that date. Reciprocity is permitted under the Nebraska law with states having requirements of the same standard as those of Nebraska.

2. Each Applicant is required to fill and acknowledge application blank furnished by the Board. The affidavit must be corroborated by the exhibition of his diploma.

3. Each applicant, if he graduated after August 1, 1898, must show proof that he has attended four full courses of lectures at a recognized medical college, no two courses being in the same year.

4. Each applicant, if he graduated after August 1, 1891, and prior to August 1, 1898, must show proof that he has attended three full courses of lectures at a recognized medical college, no two courses being in the same year.

5. Applicants who graduated at a recognized medical college prior to August 1, 1891, must show proof of having attended two full courses of lectures.

6. A fee of \$25 must be paid on filing the application for examination, except that for graduates of medical colleges located in Nebraska the fee is \$10. The fee is not returnable in case of failure to pass or non-appearance for examination.

7. Examinations are always in charge of one or more members of the State Board of Health.

8. Each candidate is known by his number, which is arranged as follows: Envelopes are numbered and each contains a blank bearing the corresponding number on which the applicant writes his name and address, this completed blank is returned by the applicant to the envelope and the envelope sealed by him.

9. Each candidate places on his answer papers the number given him; no other marks of identification are allowed on the answer papers.

10. The answer papers are collected and at once sent by express to the member of the Board having charge of that subject. Each member examines the answer papers and marks each candidate by placing the marking opposite the candidate's number. These markings are sent to the Secretary, who tabulates them and presents the same to the members of the Board at a meeting which is held shortly after each examination. When the markings are completed, the envelopes containing the names are opened and these names are placed opposite the corresponding numbers.

11. No dishonest methods are tolerated and any candidate who disregards this rule is debarred from further examination. This rule includes the giving or obtaining aid.

12. Ten questions are given on each paper, and all subjects for examination are covered by the question papers given.

13. The time allowed for each examination paper shall not exceed two hours.

14. No candidate is allowed to leave the room after the question papers have been distributed until he has completed his answers and delivered the same to the member in charge.

15. The examination is in writing and in the English language.

16. A general average of 75 must be attained. Any candidate failing to secure an average of 75 shall be considered to have failed utterly and shall not be entitled to another examination on that application.

17. Candidates from all schools shall answer in common all questions submitted except the questions on materia medica and practice, which are adapted to the school of practice accepted by the candidate. The answer papers upon subjects peculiar to any one school of medicine are sent to the members of this Board who are representatives of such school.

18. Candidates shall submit to an examination in the following branches, to-wit: Anatomy, physiology, chemistry, materia medica and therapeutics, practice of medicine, surgery, obstetrics and diseases of women, pathology and such other branches as the Board shall deem advisable.

## Date of Examinations.

February, August and November—First Wednesday and Thursday after first Tuesday. May—Generally Wednesday and Thursday of the last week of that month.

## Place of Examinations.

# Creighton Medical College

Corner Fourteenth and Davenport Streets

OMAHA / / / / NEBRASKA

The seventeenth annual course of study in this institution will begin Tuesday, September 8th, 1908. The course in this college consists of four terms of eight months each. The first two years are devoted to the study of the so-called scientific branches included in a medical course. For this purpose, the new college building is furnished with lecture rooms and laboratories equipped with the latest and best paraphernalia for teaching, demonstrating, and for individual work in these branches. The third and fourth years are given up to the study of what might be termed the practical part of the medical course. Here the instruction is carried on by means of clinics and clinical lectures. The student is brought in contact, and becomes familiar with the different phases of all the diseases he reads about. For this purpose the clinical material in St. Joseph's, and the Omaha General hospitals, the two largest hospitals in the west, is reserved for the exclusive benefit of students attending this school.

All the buildings, both college and hospitals, are new and modern, and the equipment the best that money can buy. In addition to the regular term of eight months, a spring course of two months in first and second years' work will be continued from close of winter term to July 15th. This short course gives students, deficient in time or work, an opportunity to make up such deficiency, and also allows physicians already in practice to renew their acquaintance with laboratory work and to familiarize themselves with whatever new things there are in Histology, Pathology, Bacteriology, Chemistry, etc.

**"THE FAMILY DOCTOR"** is often asked for advice as to the cure of STAMMERING. Please investigate THE REED SCHOOL. It completely and permanently eliminates stammering by a detailed course of instruction in natural speech, from its rudiments to its entirety. Visitors are welcomed and given every opportunity to become thoroughly informed as to the treatment and its results. Booklet sent on application to REED SCHOOL, 371 Hubbard Ave., DETROIT, MICH. (See other right top lines.)

1. Drunkenness, Opium, Morphine, Cocaine and other drug addictions are diseased conditions.
2. Therefore scientific medical treatment is necessary.
3. In case of sickness, none but the best should be accepted.
4. Our treatment is known the world over, and has proved its merits in over 350,000 cases.
5. We give value received, and that is the reason we are at the head in our specialty.
6. This is the only Keeley Institute in the State of Nebraska. Correspondence confidential.

## NEVADA.

CAPITAL, CARSON CITY.

Population of State, 42,335.

(U. S. Census, 1900.)

Number of Physicians, 188.

Nevada was organized as a territory in 1861 and admitted as a state in 1864. It has a population, according to the U. S. Census of 1900, of 42,335. It extends from 114 degrees to 120 degrees west longitude, and from 35 degrees to 42 degrees north latitude, and is bounded on the north by Oregon and Idaho, on the southwest and west by California, and on the east by Utah and Arizona. It comprises an area of 109,740 square miles, or 70,233,609 acres. The climate is subject to extremes, the winters being very cold, the summers hot. The mean annual temperature is 54.13 degrees; that of the summer 75.18 degrees and of winter 34.55 degrees. The face of the country is striking and peculiar. The Sierra Nevada mountains carry the western line well up their sides, while parallel to them lie high ranges with valleys between, reaching like vast furrows in a

mighty field clear across the country to the Utah line. Nevada is essentially a mining state. Ores of one kind or another and of varied value are found in nearly every range of mountains. In addition to the metals there are extensive deposits of non-metallic minerals found. Among these are sulphur, salt, borax, soda, coal and gypsum. For years Nevada has led all other states in the value of its metallic products; as far back as 1875 the yield in gold and silver was in excess of all the rest of North America. It is needless to repeat the recent history of gold hunting in Nevada, for it is familiar in almost every household. New and rich districts are constantly being discovered and the vast mineral wealth of this state is just beginning to be uncovered. The mountains are almost everywhere covered with forests of white pine, spruce and fir. Both soil and climate are favorable for the profitable production of the cereals, vegetables and fruits of the temperate zone, and the only obstacle to extensive agricultural operations in nearly all the valleys is the scarcity of water, and that can be surmounted to a

very considerable extent by systematic storage in the spring when the mountain streams are swollen by the melting snows. The live stock industry is one of the most prominent as well as most profitable in the state, there being large areas of fine grazing lands. Already, in nearly all the valleys, especially along the lines of, or near railroads, settlements have sprung up, and there are many towns and villages that offer all the advantages in the way of schools, churches, libraries, and of social intercourse generally, to be found in older settled states. The people of Nevada are especially proud of the public school system, which is amongst the most richly endowed and most efficient in the Union.

## THE MEDICAL PRACTICE ACT OF NEVADA.

AN ACT regulating the practice of medicine, surgery and obstetrics in the State of Nevada; providing for the appointment of a State Board of Medical Examiners and defining their duties; providing for the issuing of licenses to practice medicine; defining the practice of medicine; defining certain misdemeanors and providing penalties, and repealing all other acts, or parts of acts, in conflict therewith.

Approved March 4, 1905.

The People of the State of Nevada, represented in Senate and Assembly, do enact as follows:

Section 1. That it shall hereafter be unlawful for any person, or persons, to practice medicine, surgery or obstetrics in this State without first obtaining a license so to do as hereinafter provided.

Nevada

Sec. 2. Within thirty days after this law goes into effect, it shall be the duty of the Governor of the State of Nevada to appoint a State Board consisting of five members, which shall be known as the Board of Medical Examiners of the State of Nevada, and shall be reputable practicing physicians, duly licensed as such by some legally chartered medical institution in the United States, and who shall have been actually engaged in the practice of medicine in the State of Nevada, three of whom shall be selected from the school of medicine known as the Regular, one from the school known as the Eclectic, and one from the school known as the Homeopathic. This Board shall be selected without regard to their individual political beliefs, and they shall hold office for the time for which they were appointed, viz., two for four years, one for three years, one for two years, and one for one year from the date of their appointment, and shall serve until their successors are appointed and qualified. Hereafter one member shall be appointed annually for the term of four years. In the event of a vacancy occurring in said Board, or absence from the State for a period of six months without permission, the Governor shall appoint a person duly qualified under this act to fill the unexpired term.

Sec. 3. Oath: Each member of said Board shall, before entering upon the duties of his office, take the constitutional oath of office, and shall, in addition, make oath that he is a graduate in medicine, and a legally qualified practitioner of medicine in this State.

Sec. 4. The said Board shall meet in Carson City, Nevada, on the first Monday in May, 1905, and shall organize by electing from its number a President, Vice-President, Secretary and Treasurer, who shall hold their respective positions during the pleasure of the Board. Said Board shall hold its regular meetings on the first Monday of May and the first Monday of November of each year, at such time and place as shall be most convenient to the said Board, and due notice of all special meetings of the Board shall be given by publication twice a week for each of the two weeks next preceding such meeting, in three papers published in the State of Nevada. Special meetings of the Board may be held at the call of the President, and the same notice thereof shall be given as in the case of regular meetings.

Sec. 5. Rules: Said Board may, from time to time, adopt such rules as may be necessary to enable it to carry into effect the provisions of this act. Any member of said Board may administer oaths in all matters pertaining to the duties of said Board, and the Board shall have the authority to take evidence as to any matter cognizable by it. Such Board shall procure a seal, and shall receive through its Secretary applications for the certificates provided to be issued under this act.

Sec. 6. A majority of said Board shall constitute a quorum to transact all business. All certificates issued by said Board shall bear its seal and the signatures of its President and Secretary, and shall authorize the person to whom it is issued to practice medicine in all its branches in this State, upon complying with the requirements of this act. Said Board may, in its discretion, accept and register, upon payment of the registration fee, and without examination of the applicant, any certificate which shall have been issued to him by the medical examining board of the District of Columbia, or of any State or Territory of the United States; provided, however, that the legal requirements of such medical examining board shall have been, at the time of issuing such certificate, in no degree or particular less than those of Nevada at the time when such certificate shall be presented for registration to the Board created by this act; and provided further, that the provisions in this paragraph contained shall be held to apply only to such of said Medical Examining Board as accept and register the certificates granted by this Board without examination by them of the ones holding such certificates.

\*Sec. 7. After this law goes into effect, any person desiring to practice medicine, surgery or obstetrics or any of the various branches of medicine in this State, shall, before beginning practice, procure from the State Board of Medical Examiners a certificate that such person is entitled to practice medicine, surgery or obstetrics in this State. In order to procure such certificate the applicant shall submit to the said Board his or her diploma, issued by some legally chartered medical school, the requirements of which medical school shall have been at the time of granting such diploma in no particular less than those prescribed by the Association of American Medical Colleges for that year, and he must accompany said diploma or license with an affidavit setting forth the number and duration of terms the applicant was required to be in attendance, and that he is the lawful possessor of the same, that he is the person therein named, and that the diploma or license was procured without fraud or misrepresentation of any kind. Such application shall be accompanied by the affidavit of two freeholders, resident of the same county in which the applicant resides, stating that the applicant is the identical person named in the accompanying diploma, and that he or she is of good moral standing and reputable. In addition to such affidavit, said Board may hear such further evidence as, in its discretion, it may deem proper as to any of the matters embraced in said affidavit. If it should appear from such evidence that said affidavit is untrue in any particular, or if it should appear that the applicant is not of good moral character, the application must be rejected. Said Board shall retain such diploma such time as is necessary, but in no case shall said Board retain such diploma to exceed two weeks. All such diplomas and affidavits shall be addressed to the Secretary of the Board. (Repealed 1907.)

\*This section was repealed in 1907 and compulsory examination incorporated in all cases save where reciprocity exists.

Sec. 8. Applicants for certificates to practice medicine, surgery or obstetrics in the State of Nevada, other than those noted in the foregoing sections, shall be required to present a diploma from a legally recognized college, and to pass a satisfactory examination before the State Board of Medical Examiners as to his or her qualifications. The applicant must appear personally before the Board, and the examination shall be conducted in the English language, and shall be, in whole or in part, in writing, and in each branch shall obtain seventy-five per cent, and shall be on the following subjects, to-wit: Anatomy, physiology, materia medica and therapeutics, chemistry, bacteriology, pathology, toxicology, obstetrics, surgery, general

medicine, diseases of the skin, eye, ear, nose, throat, brain, and the genito-urinary system. Said examination shall be fair and impartial, and the questions of such a character as will determine the fitness of the applicant to practice his, or her, profession. When an applicant applies for examination in materia medica and therapeutics, and theory and practice of medicine, he shall designate in what school of medicine he desires to practice, and only the member or members of the Board who belong to the school so designated shall participate in this part of the examination. Examinations shall be practical in character, and designed to discover the applicant's fitness to practice medicine and surgery. If an applicant fail in his first examination, he may, after not less than six months, be re-examined without additional fee. If he fail in a second examination he shall not thereafter be entitled to another examination in less than one year after the date of second examination, and shall be required to pay for such examination the full fee. The examination papers shall form a part of the records of said Board, and shall be kept on file by the Secretary, and such records shall be open to public inspection whenever requested, after the examination. Each applicant, on making application, shall pay to the Secretary of the Board a fee of twenty-five (\$25) dollars at the same time the diploma and affidavit is filed with him, and this fee shall not be returned in the event of the applicant's failing to pass a satisfactory examination. Any person who may hereafter be granted a license to practice medicine and surgery in this State under this act upon the grounds of reciprocity with other States and without examination, shall pay a fee of twenty-five (\$25) dollars for such license.

Sec. 9. Any unsuccessful applicant shall have the right to appeal to the courts, requiring the said Board to show cause why such applicant should not be permitted to practice medicine, surgery or obstetrics in the State of Nevada.

Sec. 10. Said Board shall procure a book for the purpose of recording the names of all persons to whom it issued certificates. In this book shall be entered the names of the applicants, together with the name of the school granting the diploma, the date of the diploma, the number of terms the applicant attended school, residence of applicant, and the date of issuance of certificate. This book shall be retained by the Secretary, who shall note the unsuccessful applicants, furnishing the same information as is given above. The Secretary shall furnish each County Clerk in this State a complete list of persons to whom certificates have been issued, after each meeting of the Board. Such list shall be retained and filed by the County Clerk, and it shall show the name, age and location of the holder of each certificate, together with the name of the institution conferring the degree, and the date of the issuance of certificate.

Sec. 11. The members of the Board shall serve without compensation, except that their actual expenses incurred while attending a regular or special meeting of the Board shall be refunded; provided, that the Secretary shall receive a semi-annual salary of one hundred and fifty (\$150) dollars for his services. All moneys received by the Board shall be paid out on its order for its expenses, and the traveling expenses of the members, and if the moneys received are not sufficient to meet such expenses, then the Board shall certify to the Board of Examiners, with accompanying vouchers, over its seal and the signatures of its President and Secretary, the amount actually necessary to meet the remainder of its expenses, and upon the approval of said claim by the Board of Examiners the State Controller shall draw his warrant upon any moneys in the General Fund not otherwise appropriated, and the State Treasurer shall pay the same.

Sec. 12. Every person to whom the Board shall issue a certificate shall present the same to the County Recorder of the county in which he desires to practice and have the same recorded, and shall pay the fee usually paid for recording such papers. The Board may refuse a certificate to any applicant guilty of unprofessional conduct, and may revoke any certificate for a like cause. In all cases of refusal or revocation the party aggrieved may appeal to the courts. The words "unprofessional conduct," as used in this act, are hereby declared to mean:

1. The procuring or aiding or abetting in procuring a criminal abortion.
2. The obtaining of any fee on the assurance that a manifestly incurable disease can be permanently cured.
3. The wilfully betraying a professional secret.
4. All advertising of medical business in which grossly improbable statements are made.
5. All advertising of any medicines, or of any means, whereby the monthly periods of women can be regulated, or the menses re-established if suppressed.
6. Conviction of any offense involving moral turpitude.
7. Habitual intemperance.

Sec. 13. For the purposes of this act the words "practice of medicine, surgery and obstetrics," shall mean to open an office for such purpose, or to announce to the public, or to any individual in any way, a desire or willingness or readiness to treat the sick or afflicted in any county in the State of Nevada; or to investigate or diagnose, or to offer to investigate or diagnose any physical or mental ailment, or disease of any person, or to give surgical assistance to, or to suggest, recommend, prescribe or direct for the use of any person, any drug, medicine, appliance or other agency, whether material or not material, for the cure, relief or palliation of any ailment or disease of the mind or body, or for the cure of relief of any wound, or bodily injury, or deformity, after having received or with the intent of receiving therefor, either directly or indirectly, any money, gift or any other form of compensation. It shall also be regarded as practicing medicine within the meaning of this act if anyone shall use in connection with his or her name the words or letters "Dr.," "Doctor," "Professor," "M. D.," or "Healer," or any other title, word, letter or other designation intended to imply or designate him or her as a practitioner of medicine, or surgery, or obstetrics in any of its branches, provided, that nothing in this act shall be construed to prohibit gratuitous services of druggists or other persons in cases of emergency, or the domestic administration of family remedies, and this act shall not apply to commissioned surgeons of the United Army or Navy in the discharge of their official duties, nor shall it apply to professional or other nurses in the discharge of

their duties as nurses, nor to physicians who are called into the State for consultation, and who are legally qualified to practice in the State where he or she resides. In charging any person in an affidavit, information or indictment with a violation of this act by practicing medicine, surgery or obstetrics without a license, it shall be sufficient to charge that he or she did, upon a certain day, and in a certain county of this State, engage in the practice of medicine, he or she, not having a license to do so, without averring any further or more particular facts concerning the same.

Sec. 14. Any person who shall practice medicine, surgery or obstetrics in this State without first complying with the provisions of this act, shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine of not less than one hundred (\$100) dollars, nor more than two hundred (\$200) dollars, or by imprisonment in the county jail for not less than fifty (50) days, nor more than one hundred and eighty (180) days, or by both such fine and imprisonment for each and every such offense. Any person may institute proceedings at law provided for in this act.

Sec. 15. Every person filing for record, or attempting to file for record, the certificate issued to another, falsely claiming himself to be the person named in such certificate, or falsely claiming himself to be the person entitled to the same, shall be guilty of felony, and, upon conviction thereof, shall be punished by imprisonment in the State Prison not less than one year nor exceeding five years.

Sec. 16. Any person assuming to act as a member of a State Board of Medical Examiners, or who shall sign, or subscribe, or issue or cause to be issued, or seal or cause to be sealed, a certificate authorizing any person to practice medicine or surgery in this State, except the person so acting and doing shall have been appointed a member of said Board of Medical Examiners as in this act provided, shall be guilty of a misdemeanor, and shall be punished by a fine of not less than one hundred (\$100) dollars nor more than five hundred (\$500) dollars, or by imprisonment in the county jail for a term of not less than sixty (60) nor more than one hundred and eighty (180) days, or by both such fine and imprisonment.

Sec. 17. Every person practicing medicine, surgery or obstetrics in the State of Nevada on the first Monday of May, 1905, shall submit to the said Board his, or her, diploma for registration, and a fee of twenty-five (\$25) dollars shall accompany such diploma; provided, that the owner of such diploma shall, if he or she was practicing medicine, surgery or obstetrics prior to the passage of the act approved March 15, 1899, and has not complied with said act of March 15, 1899, pay a fee of five (\$5) dollars for such registration, but said person shall submit to the Board said diploma on the first Monday of May, 1905; provided further, that all persons who have complied with the act of March 15, 1899, shall be entitled to full registration by the said Board of Medical Examiners, and nothing in this act shall be construed to prevent such registration, and the Secretary of said Board shall enter free of all charge, upon the record book of said Board, the names of all persons who have complied with the act of March 15, 1899. And be it further provided, that a certificate of registration or license issued by the proper Examining Board of any State, which agrees on reciprocal registration with this State, may be accepted as evidence of qualification for reciprocal registration in this State; provided, that the holder of such certificate was, at the time of such registration, the legal possessor of a diploma issued by a medical college in good standing in this State, and that the date thereof was prior to the passage of this act.

Sec. 18. All acts and parts of acts in conflict with this act are hereby repealed.

Sec. 19. This act shall take effect from and after the third day of May, 1905.

Reciprocity—Nevada reciprocates with Georgia, Indiana, Iowa, Kentucky, Maine, Maryland, Michigan, Minnesota, Missouri, Nebraska, South Carolina, Texas and Wisconsin, provided applicants have obtained their certificates to practice by examination in said States.

## NEW HAMPSHIRE.

### CAPITAL, CONCORD.

Population of State, 411,588.

(U. S. Census, 1900.)

Number of Physicians, 704.

New Hampshire was settled by English colonists at Dover and Plymouth in 1623. These settlements were annexed to Massachusetts in 1641, but became a separate province in 1741. It was one of the 13 original states, framed a constitution in 1776, and ratified the United States constitution June 21, 1788. It is bounded on the north by Canada, on the south by Massachusetts, on the east by Maine and the Atlantic ocean, and on the west by Vermont, and extends from 42 degrees 41 minutes to 45 degrees 11 minutes north latitude, and from 70 degrees 40 minutes to 72 degrees 28 minutes west longitude. According to the U. S. Census of 1900, New Hampshire had a population of 411,588, as against 376,530 in 1890, representing an increase during the decade of 35,058, or 9.3 per cent. The following table shows population for 70 years:

1830.....	269,328	1870.....	318,300
1840.....	284,574	1880.....	346,991
1850.....	317,976	1890.....	376,530
1860.....	326,073	1900.....	411,588

The total land surface of New Hampshire is, approximately, 9,005 square miles, the average number of persons to the square mile at the censuses of 1890 and 1900, being as follows: 1890, 41.8; 1900, 45.7. Along the sea coast extends a tract of low and level land some thirty miles wide which rises to a narrow belt of hilly country and culminates in the famous White Mountains in the northern part of the state, of which the highest point, Mt. Washington, forms the loftiest summit in New England. The range has outlying groups interspersed over the state. The climate is rigid and the winters long and severe, particularly in more elevated mountainous districts. The summers are usually mild and pleasant, although a temperature of over 100 degrees in the shade is not of rare occurrence. The mean annual temperature ranges from 38 degrees in Coos county and the White Mountains to 48 degrees in the southern portion. The rainfall averages from 10 to 14 inches in summer, from 6 to 12 inches in winter, and from 32 to 40 inches during the year. The sea coast and the Connecticut valley receive the largest amount of precipitation.

The state is well watered. The principal rivers are the Connecticut (which forms its entire western line of demarcation), with its numerous tributaries, and the Merrimac with its feeders, flowing through the center of the state and emptying into the Atlantic. The upper waters of the Androscoggin drain a large portion of the northern section. There are numerous lakes and the state is noted for the remarkable beauty of its mountain and lake scenery. Fine forests of oak, pine, beech, sugar maple, birch, etc., cover the mountains and the northern parts of the state and willows, poplars, and sycamores grow along the rivers. Lumber supplies a prominent product. The state leads in the output of mica, and granite of the finest quality is quarried. There is abundant water power and manufactures are extensively carried on, cotton and woollen goods, boots and shoes, leather, paper, wooden ware, furniture and machinery being the principal products.

The educational interests of the state are most excellent, about \$1,000,000 being annually appropriated for that object. Dartmouth College, located at Hanover, is one of the best known educational institutions in the country.

### MEDICAL LAW OF NEW HAMPSHIRE.

An Act to Regulate the Licensing and Registration of Physicians and Surgeons.  
Be it enacted by the Senate and House of Representatives in general court convened:

Section 1. No person shall hold himself out to the public as a physician and sur-  
geon, or advertise as such, or use the title M. D. or Dr. (or any title which shall  
show or tend to show that the person using the same is a practitioner of any of the  
branches of medicine), in New Hampshire after September 1, 1897, unless previously  
registered and authorized, or unless licensed and registered as required by this chap-  
ter; nor shall any person practice medicine and surgery whose authority to practice  
is suspended or revoked by the agent of a state board.

Sec. 2. Within sixty days after the passage of this act, the Governor and council  
shall appoint three separate State Boards of Medical Examiners, of five members  
each, so appointed that the term of office of one member shall expire each year, and  
the members thereafter appointed shall hold office five years, or until their successors  
are appointed and qualified. One board shall represent the New Hampshire Medical  
Society, one the New Hampshire Homeopathic Medical Society, and one the New  
Hampshire Eclectic Society. Each of these three societies shall nominate, annually,  
twice the number of examiners to be appointed in that year on the board represent-  
ing it. The names of such nominees shall be annually transmitted, under seal, by the  
President and Secretary, to the Governor and council, who shall appoint from such  
lists the examiners required to form the boards and to fill any vacancy that may  
occur from expiration of office or otherwise. Each nominee, before appointment,  
shall furnish to the Governor and council satisfactory proof that he has received  
the degree of doctor of medicine from some registered medical school, and that he  
has legally practiced medicine in this state for at least five years. If no nominees  
are presented from a society to the Governor and council, they may appoint from  
members in good standing in such society without restriction. The Governor and  
council, upon recommendation of the board, may remove any examiner for miscon-  
duct, incapacity or neglect of duty.

Sec. 3. Every medical examiner shall receive a commission of appointment from  
the State, and before beginning his term of office shall file with the Secretary of  
State the constitutional oath of office. Each Board, or any member thereof, may take  
testimony and proofs concerning all matters within its jurisdiction. Each board may  
make any by-laws and rules, not inconsistent with law, necessary in performing its  
duties.

Sec. 4. The Superintendent of Public Instruction, ex-officio, shall be the Regent  
of the State Boards of Medical Examiners, and shall perform such duties as are  
herein specified.

Sec. 5. From the fees provided by this act, the Regent may pay all proper ex-  
penses incurred by its provisions, except compensation to medical examiners; and  
any surplus at the end of any year shall be apportioned equally among the three  
boards; and the State shall not pay the expenses of said boards, or either of them,  
or compensate them, or either of them, for services rendered under their commis-  
sions.

Sec. 6. Each board shall annually elect from its members a President and Secretary  
for the year, and shall hold one or more meetings each year, pursuant to call of the  
Regent, who may also call joint meetings of the three boards or of their officers. At  
any meeting a majority shall constitute a quorum, but questions prepared by the  
boards may be grouped and edited, or answer papers of candidates may be examined  
and marked, by committees duly authorized by the boards.

Sec. 7. The Regent shall admit to examination any candidate who pays a fee of  
\$10 and submits satisfactory evidence, verified by oath, if required, that he—

1. Is more than twenty-one years of age.
2. Is of good moral character.
3. Has graduated from a registered college; or satisfactorily completed a full  
course in a registered academy or high school; or had a preliminary education con-  
sidered and accepted by the regent as fully equivalent.
4. Has studied medicine not less than four full school years, of at least nine  
months each, including four satisfactory courses, of at least six months each, in four  
different calendar years, in a medical college registered as maintaining at the time  
a satisfactory standard. The Regent shall accept, as the equivalent for any part of  
the third and fourth requirements, evidence of five or more years' reputable practice,  
provided that such substitution be specified in the license.
5. Has either received the degree of bachelor or doctor of medicine from some  
registered medical school, or a diploma or license conferring full right to practice  
medicine in some foreign country.

Students who matriculate in a New Hampshire medical school before January 1.  
1898, on the prescribed study of medicine, shall be exempt from this preliminary  
education requirement.

Sec. 8. Each board shall submit to the Regent, as required, lists of suitable  
questions for thorough examinations in anatomy, physiology and hygiene, chemistry,  
surgery, obstetrics, pathology and diagnosis, and therapeutics including practice and  
materia medica. From these lists the Regent shall prepare question papers for all  
these subjects, which at any examination shall be the same for all candidates, except  
that in therapeutics, practice and materia medica all the questions submitted to any  
candidate shall be chosen from those prepared by the board selected by that candi-  
date and shall be in harmony with the tenets of that school, as determined by its  
State Board of Medical Examiners.

New Hampshire 1191

Sec. 9. Examinations for license shall be given at Concord, in this State, and at least twice annually, and shall be exclusively in writing and in English. Such examination shall be conducted by the regent, or a competent examiner appointed by him, who shall not be one of the medical examiners. At the close of each examination the Regent or examiner in charge shall deliver the questions and answer papers to the board selected by each candidate, or to its duly authorized committee, and such board, without unnecessary delay, shall examine and mark the answers and transmit to the Regent an official report, signed by its President and Secretary, stating the standing of each candidate in each branch, his general average, and whether the board recommends that a license be granted. Such report shall include the questions and answers and shall be filed in the public records of the Regent. If a candidate fails on first examination, he may, after not less than six months' further study, have a second examination without fee. If the failure is from illness, or other cause satisfactory to the boards, they may waive the required six months' study.

Sec. 10. On receiving from a State Board an official report that an applicant has successfully passed the examinations and is recommended for license, the Regent shall issue to him a license to practice medicine. Every license shall be issued by the Regent under seal, and shall be signed by each acting Medical Examiner of the Board selected, and by the Regent, and shall state that the licensee has given satisfactory evidence of fitness, as to age, character, preliminary and medical education, and all other matters required by law, and that after full examination he has been found properly qualified to practice. Applicants examined and licensed by other State Examining Boards registered by the Regent as maintaining standards not lower than those provided by this chapter, and applicants who matriculate in a New Hampshire medical school before January 1, 1898, and who receive the degree M. D. January 1, 1903, may, without further examination, on payment of five dollars to the regent and on submitting such evidence as may be required, receive an indorsement of their licenses or diplomas conferring all rights and privileges of a Regent license issued after examination.

Before any license is issued it shall be numbered and recorded in a book kept in the Regent's office, and its number shall be noted in the license. This record shall be open to public inspection, and in all legal proceedings shall have the same weight as evidence that is given to a record of conveyance of land.

Sec. 11. (As amended by Chapter 1 of the Sessions Laws of 1903.) This chapter shall not be construed to affect commissioned medical officers serving in the United States Army, Navy or Marine Hospital Service, while so commissioned; or any one while actually serving on the resident medical staff of any legally incorporated hospital; or any legally registered dentist exclusively engaged in practicing dentistry; or any manufacturer of artificial eyes, limbs or orthopedic instruments or trusses in fitting such instruments on persons in need thereof; or any lawfully qualified physician in other states or countries meeting legally registered physicians in this State in consultation; or any physician residing on a border of a neighboring state and duly authorized under the laws thereof to practice medicine therein, whose practice extends into this State, and who does not open an office or appoint a place to meet patients or receive calls within this State; or to the regular or family physicians of persons not residents of this State, when called to attend them during a temporary stay in the State; neither shall the provisions of this act apply to clairvoyants, or to persons practicing hypnotism, magnetic healing, mind cure, massage, Christian science, so-called, or any other method of healing if no drugs are employed or surgical operations are performed; provided such persons do not violate any of the provisions of this act in relation to the use of M. D. or the title of doctor or physician.

Sec. 12. Any person who, not being then lawfully authorized to practice medicine within this State and so registered according to law, shall hold himself out to the public as a physician and surgeon, or advertise as such, within this State, without lawful registration or in violation of any provision of this chapter; and any person who shall buy, sell or fraudulently obtain any medical diploma, license, record, or registration, or who shall aid or abet such buying, selling, or fraudulently obtaining, or who shall practice medicine under cover of any medical diploma, license, record or registration illegally obtained, or signed, or issued unlawfully, or under fraudulent representations or mistake of fact in a material regard; and any person who shall append the letters M. D. to his or her name; or shall assume or advertise the title of doctor (or any title which shall show or tend to show that the person assuming or advertising the same is a practitioner of any of the branches of medicine) in such a manner as to convey the impression that he or she is a legal practitioner of medicine, or of any of its branches, without having legally received the medical degree, or without having received a license which constituted at the time an authority to practice medicine under the laws of this State then in force, shall be guilty of a misdemeanor, and on conviction thereof shall be punished by a fine of not more than one hundred dollars or imprisonment for three months for the first offense; and on the conviction of any subsequent offense, by a fine of not more than two hundred and fifty dollars or imprisonment for not less than six months, or by both fine and imprisonment.

Sec. 13. Every person who is a practitioner of medicine and surgery in this state prior to the passage of this act shall be, upon satisfactory proof thereof to the Regent and upon the payment of a fee of one dollar, entitled to registration; and the said Regent shall issue to him a certificate signed by himself and the Chairman and Secretary of such Board of Medical Examiners as the applicant may elect; and said certificate shall state the facts and the cause of said registration, and shall entitle the said person to practice medicine legally in the State of New Hampshire.

Sec. 14. The first meeting of the boards may be called by any one of the members by a notice in writing, stating the time and place of meeting, sent by mail to each of the other members at least one week prior thereto. (See amendment.)

Sec. 15. This act shall take effect on its passage.

Approved March 16, 1897.

An Act to Amend Section 14, Chapter 63, of the Laws of 1897, in Relation to the Practice of Medicine.

Section 1. Physicians from other states, admission to practice.

Be it enacted by the Senate and House of Representatives in General Court convened:

Section 1. Amend chapter 63, of the laws of 1897, by adding the following to section 14 of said chapter: Any legal practitioner of medicine and surgery in any other State or Territory, which will grant to physicians and surgeons registered in this State similar privileges, shall be admitted to practice medicine and surgery in this State by paying the usual fee of ten (\$10) dollars and presenting to the Boards of Medical Examiners a satisfactory diploma from some medical school, a certificate of registration, or license to practice medicine, from the State or Territory from which he comes, and evidence satisfactory to said boards of examiners of his professional standing.

Approved February 20, 1907.

## NEW JERSEY.

CAPITAL, TRENTON.

Population of State, 2,144,143.

(State Census, 1905.)

Number of Physicians, 2,496.

New Jersey is bounded on the north by New York, on the south by the Atlantic ocean and Delaware Bay, on the east by New York and the Atlantic ocean, and on the west by Delaware and Pennsylvania, and extends from 38 degrees 56 minutes to 41 degrees 30 minutes north latitude, and from 73 degrees 55 minutes to 75 degrees 32 minutes west longitude. Its greatest length is 169 miles and greatest breadth 50 miles. According to the state census of 1905, it has a total population of 2,144,143, as against 1,883,669 in 1900, or an increase of 260,474, which is, approximately, an increase of 14 per cent in five years. The following table shows increase in population since 1830:

1830.....	320,823	1870.....	906,096
1840.....	373,306	1880.....	1,131,116
1850.....	489,555	1890.....	1,444,933
1860.....	672,035	1900.....	1,883,669

1905. (State Census), 2,144,143.

The total land surface is, approximately, 7,525 square miles, the average number of persons to the square mile at the U. S. censuses of 1890 and 1900 being as follows: 1890, 192.0; 1900, 250.3. The state may be divided into three sections. The northwestern part is mountainous, being traversed by a broad belt of ridges belonging to the Appalachian system. The middle section consists of red sandstone with trap ridges and is diversified by gentle undulations. The lower portion of the state, with its sandy soil and forests of pine, is comparatively level and forms a part of the Aatlantic coast plain. The climate is mild, being tempered by the vicinity of the ocean. The mean annual temperature, as observed at Newark during a period of 24 years, was 50.50 degrees, that of the summer 70.35 degrees, and that of the winter 30.75 degrees.

The state is well watered and the abundance of its streams renders perfect drainage very easy, while their

rapid fall gives them great value for their water power. The principal rivers are the Hudson, which runs along the eastern boundary for 28 miles; the Delaware, forming the western boundary and draining 2,100 square miles of its territory; the Hackensack, Raritan, Passaic, Navesink, Rahway, Great Egg, Shrewsbury, Toms, Maurice and Mullica. There are numerous small lakes in the northwestern part of the state.

For list of Medical Colleges, see page 152.

### SYNOPSIS OF THE REQUIREMENTS FOR LICENSE TO PRACTICE MEDICINE AND SURGERY IN NEW JERSEY.

1. Name, residence, place and date of birth, showing that candidate is over 21 years of age.

2. Minimum preliminary academic requirements: A candidate for medical license in New Jersey who has not taken either a partial or a complete course in a registered literary college must present satisfactory evidence of preliminary academic education in one of the following forms:

(a) A certificate or diploma issued after four years of study either in a normal, manual training or high school of the first grade, or in a legally constituted academy, seminary or institute maintaining the same or equivalent academic standards.

(b) A student's certificate of examination for admission to the freshman class of a registered literary college, attested by the seal of the institution attended, or by a notary

(c) A certificate of graduation from a foreign institution of learning of recognized standing, representing the equivalent of an American high school course of the first grade.

(d) A certificate from the State Superintendent of Public Instruction of New Jersey, who is authorized to determine whether the candidate's academic education prior to beginning the study of medicine was fully equivalent to the standard fixed by law.

Candidates for medical license must present their academic credentials to the State Superintendent of Public Instruction, Trenton, N. J., for certification, and the

certificates of preliminary academic education issued by him must accompany the applications for admission to the medical examination for state license.

Preliminary academic certificates accepted either for indorsement or for admission to the state medical examination for license will be attached to the application forms and filed permanently in the State Library at Trenton.

1. Medical Students: To avoid future embarrassment and disappointment, prospective medical students should, before matriculating at a professional school or college, secure certificates of preliminary academic education from the State Superintendent of Public Instruction. Applicants for such certificates presenting credentials that cover but partial high school or academic courses may, with the consent of the State Superintendent, secure the additional counts required at any regular examination for Teachers' State Certificates.

2. Academic counts secured after the completion of a medical course, or while pursuing a medical course cannot be accepted.

3. The State Examinations for Teachers are held in Trenton on the second Thursday of June and December, respectively, and on the Friday and Saturday next following.

4. A percentage of not less than 70 must be obtained in each subject in which an examination is taken, in order to entitle the applicant to the counts allowed in the following list:

### THURSDAY.

Literature .....	4 counts	Chemistry .....	2 counts

3. Medical Requirements: A candidate must have received a diploma conferring the degree of Doctor of Medicine from some legally incorporated medical college (which in the opinion of this Board was in good standing at the time of issuing said diploma) in the United States, or a diploma or license conferring the full right to practice all the branches of medicine and surgery in some foreign country, and have also studied medicine not less than four full school years of at least nine months each, including four satisfactory courses of lectures of at least seven months each, in four different calendar years in some legally incorporated American or foreign medical college or colleges, prior to the granting of said diploma or foreign license.

When a candidate has taken lectures at more than one medical college, a certificate of attendance, attested by the seal of the college, must be presented from each institution in addition to the affidavit on the blank from the college of graduation.

First Exemption: Candidates for license who graduated prior to July 4th, 1903, and have been in continuous and reputable practice for at least five years since graduation, may be admitted to the examinations of this board upon certified and satisfactory evidence of moral character, of three courses of medical lectures in different calendar years and of a competent academic education according to the standard of that time, as determined in the case of non-graduates of academic institutions by the State Superintendent of Public Instruction; provided, however, that such substitution and exemption be specified in the license.

Second Exemption: Candidates for license who graduated prior to July 4th, 1894, and have been in continuous and reputable practice since graduation, may be admitted to the examinations of this board upon certified and satisfactory evidence of moral character, of two courses of medical lectures in different calendar years and of a competent academic education according to the standard of that time as determined in the case of non-graduates of academic institutions by the State Department of Public Instruction; provided, however, that such substitution and exemption be specified in the license.

4. Moral Requirements: A candidate for examination must present a certificate of moral character, signed by two physicians in good standing, one of whom must be a resident of New Jersey, recommending him as entirely worthy to be licensed to practice medicine and surgery in the State of New Jersey.

5. Application for Examination: A candidate for examination should apply to the Secretary of this Board for a blank application, which must be filled out in accordance with the printed instructions on the blank; bear the seal of the medical institution from which the applicant was graduated, and be returned to the Secretary for approval and filing, with a certificate of academic education and a certified check, signed by or payable to the order of the candidate, or a postal money order for \$25.

the regular examination fee, at least ten days before the date of the examination. In addition to the above requirements, a graduate of a foreign institution must file, with his applications, a certified copy, with translation, of his academic and medical diplomas, made by and under the seal of the consul-general, showing that the candidate possesses the full right to practice medicine in all its branches in the country in which the diploma was issued, to which the candidate must make affidavit that he is the person named therein.

Each candidate will be required to file with his or her application for examination a recent photograph of himself or herself, on the reverse side of which the candidate must write his or her name before a notary, or other legal official, who must certify over his seal to the identity of the photograph with the candidate and to the genuineness of the signature. No candidate will be admitted to the examination who has not complied with this rule. If the applicant is approved, the candidate will be advised of the time and place of the examination and of the rules governing the same. After the examination, the application forms, with examination questions, papers, averages and academic certificates, will be filed in the State Library at Trenton. Neither academic nor medical diplomas should be sent to the Secretary unless requested. In case of failure to pass the examination, the candidate may be re-examined at any regular examination within one year without the payment of an additional fee. Subsequent examinations include all branches.

6. **Subjects of Examination:** All examinations shall be written in the English language, and shall be held in the following subjects namely: (Sec. 1) materia medica and therapeutics, (Sec. 2) obstetrics and gynecology, (Sec. 3) practice of medicine, including physical diagnosis and diseases of the skin, nose and throat, (Sec. 4) surgery, including surgical anatomy and diseases of the eye, ear and genito-urinary organs, (Sec. 5) anatomy, (Sec. 6) physiology, (Sec. 7) chemistry, (Sec. 8) histology, pathology and bacteriology, (Sec. 9) hygiene and medical jurisprudence.

Candidates intending to practice homoeopathy or eclectism will be examined in materia medica and therapeutics by the members of the Board of Examiners representing those schools. Two hours are given to each section in which fifteen questions are submitted, ten of which must be answered by the candidate. A total average of at least seventy-five per cent, or 675 points out of a possible 900, must be attained.

7. **Date and Place of Examination:** The regular examinations of the Board are held in the State House, at Trenton, on the third Tuesday and Wednesday in June and October. Application for proper blank forms for the June examinations should be made early in May, and for the October examinations in August.

8. **Endorsement of Medical Licenses:** Endorsement of medical licenses issued by other States can be granted by this State in lieu of examination, only where the standard of requirements is substantially the same as that of New Jersey.

Candidates for indorsement must comply with the same requirements as candidates for examination, and with the following additional conditions:

(a) A candidate must have passed a State examination, satisfactory to and approved by this Board, in substantially the same medical branches and under essentially the same rules and regulations as required by this Board for examination, and must have received a State license upon an average marking of at least seventy-five per cent.

(b) A candidate must present with his application a certificate of moral character either from an incorporated medical society, signed by the President or Secretary thereof over the seal of the society, or from two legally qualified physicians, residents of the same locality as the candidate, duly attested by a notary.

(c) A candidate must present a letter from a registered, reputable physician of New Jersey, recommending him for indorsement of this Board.

9. **Application for Indorsement.** Application for indorsement must be made upon a blank form obtained from the Secretary, which must be filed out in conformity with the above conditions; bear the seal of the medical institution from which the candidate was graduated, with the certificate of the Dean or other executive officer, stating number and length of course of lectures and date of graduation; bear a verbatim copy of the applicant's State medical license over the seal of the State Examining Board issuing the same, together with the affidavits of the President and Secretary thereof, as to the date of examination, number of licenses, subjects examined and total average attained, and must be returned to the Secretary of this Board for approval and filing, with the affidavit of the candidate and a certified check or postal money order for the regular fee of fifty dollars.

A graduate of a foreign institution must file with his application a certified copy, with translation, of his medical diploma, made by and under the seal of the consul-general, showing that the candidate possesses the full right to practice medicine in all its branches in the country in which the diploma was issued, to which the candidate must make affidavit that he is the person named therein.

If the application is approved, the license of this Board will be granted, and the application form, with certificates of recommendation, moral character and academic education, will be filed permanently in the State Library at Trenton as prima facie evidence of matters contained therein. The indorsement of the college diploma, or a foreign license, cannot be accepted in lieu of a State examination. A candidate must designate the State license to be indorsed, and the acceptance of an application for indorsment cannot be determined until the forms provided by this Board have been properly filled out and submitted for approval.

10. **Certified Copy:** A certified copy of the license issued by this Board must be filed with the clerk of the county in which the candidate intends to practice. A candidate removing from one county to another must file a certified copy of his license with the clerk of the county to which he removes; duplicate copies may be obtained from the Secretary of this Board by forwarding the original license with the fee of \$2.00.

A candidate, whether for examination or indorsement, must not begin the practice of medicine in this State until he has received a certificate of license from this Board and has duly filed a copy of the same.

11. Temporary License: A temporary license may be granted to a legally qualified physician of another State to take charge of the practice of a legally qualified physician of this State, temporarily, during the latter's absence from this State, upon written request from the physician residing in this State, made on the blank form of this Board, under affidavit, and returned to the Secretary for filing with the regular fee of \$2.00, when license will be issued. This license covers a period of not less than two weeks nor more than four months. A temporary license will not be granted under any other condition.

12. Penalty for Unlawful Practice: Any person hereafter commencing the practice of medicine and surgery in any of its branches in this State without first having obtained and filed a license from this Board as provided for in the act regulating the practice of medicine and surgery, approved May 22d, 1894, amended and approved April 8th, 1903, or contrary to the provisions of the act, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished for the first offense by a fine of not less than one hundred dollars or by imprisonment in the county jail for a period of not less than thirty days or by both fine and imprisonment, and for each subsequent offense the punishment shall be double that of the preceding one; and it shall be the duty of the respective prosecutor-of-the-pleas of the counties of this State to prosecute violations of the provisions of this act.

## NEW MEXICO,

CAPITAL, SANTA FE.

Population of Territory, 195,310.

(U. S. Census, 1900.)

Number of Physicians, 319.

The Spanish adventurer, Alvarez Nunez, was the first to penetrate from the south into the region now constituting New Mexico, in 1536. Three years later a second journey was undertaken by Marco de Niza, and in 1540 a third by Coronado. In 1595, Juan de Onate took possession of the territory in the name of the King of Spain, without, however, giving distinct boundaries to the new acquisition. It remained a part of Mexico until 1846, when, on the outbreak of the war with the United States, General Kearney took possession of Santa Fe. In the treaty of Guadalupe Mexico was ceded to the United States. It was organized as a territory by Act

of Congress in 1850. It lies between 31 degrees 20 minutes and 37 degrees north latitude, and 103 degrees and 109 degrees 9 minutes west longitude, and is bounded on the north by Colorado, on the east by Texas and Oklahoma, on the south by Texas and Mexico, and on the west by Arizona. The population, according to the U. S. Census of 1900, was 195,310, as compared with a population in 1890 of 153,593, showing an increase during the decade of 41,717, or 27.2 per cent.

The total land surface is, approximately, 122,460 square miles, the average number of persons to the square mile at the censuses of 1890 and 1900 being as follows: 1890, 1.3; 1900, 1.6. The climate is salubrious; mild and equable winters being followed by cool and invigorating summers. The mean annual temperature at Santa Fe is 50.54 degrees; that of the summer 70.50 degrees, and of the winter 30.28 degrees. The rainfall is light, varying from 8 inches in the val-

## MEDICAL LAW OF NEW MEXICO.

(Enacted 1907.)

AN ACT to Regulate the Practice of Medicine in New Mexico and to Establish a Board of Health and Medical Examiners.

Be it enacted by the Legislative Assembly of the Territory of New Mexico:

Section 1. That a Board is hereby established to be called the New Mexico Board of Health and Medical Examiners, which shall be composed of seven reputable physicians of known ability who are graduates of medical colleges in good standing, as hereinafter defined, and have been registered practitioners in, and bona fide residents of, the Territory of New Mexico, for a period of five years next preceding the date of their appointment. The Governor of New Mexico shall appoint the members of said Board as other Territorial officers are appointed from a list to be furnished to him by the New Mexico Medical Society or Association, and shall from a similar list fill any vacancies occurring in said Board and may remove any member of said Board who fails to perform his duties as hereinbefore defined. Three of the members of said Board so appointed shall hold their offices for a period of two years and the remaining four members of said Board shall hold their offices for a period of four years, and thereafter the members of said Board, upon the expiration of the terms aforesaid, shall hold their offices for a period of four years and until their successors are elected and qualified. All members of said Board shall qualify as now required of the Board of Regents of the University of New Mexico.

Sec. 2. Within sixty days after their appointment, the members of said Board shall meet in the Capitol building in the City of Santa Fe, New Mexico, and organize by electing one of their number President, one as Vice-President, one as Secretary, and one as Treasurer, and thereafter regular meetings of said Board shall be held in the said Capitol building on the second Mondays of January, April July and October in each year, and there shall be not less than a two days' session at each meeting. Special meetings may be held at any time upon call of the President by written notice to all of the members of the Board, in which notice the object of the meeting shall be fully stated. A majority of the members shall constitute a quorum for the transaction of business, but a less number may meet and adjourn to some fixed date.

Sec. 3. The said Board shall, upon the production of evidence satisfactory to it, license without medical examination any reputable person who is a graduate of a medical college in good standing as defined in this act, who has been in the active practice of his profession for two years next preceding the time of making application for such license and who personally appears before the Board at a regular meet-

ing. A medical college in good standing for the purposes of this act, is defined to be one which has a standard as high as that required by the Association of the American Medical Colleges, which has ample clinical facilities. Said Board, at its April meeting in each year, shall prepare and cause to be printed and distributed for the information of those interested, a copy of this law, together with a list to be prepared by such Board of Colleges in good standing, as defined by this act, and such Board may revise such list at any regular meeting. The Board will not recognize any college which misrepresents its records, its teachings, its clinical facilities, or as to its students or graduates. No college of any foreign country shall be recognized, except to the same extent as such foreign country recognizes American colleges, and when said foreign college is of good standing under the laws of New Mexico. No license shall be granted except by the Board at a regular meeting, and every applicant for license shall appear in person before such Board. Such Board may recognize any honorary or emeritus degree conferred upon any foreigner by any such college as fully and to the same extent as if the applicant were a regular graduate thereof.

Sec. 4. Such Board shall also license reputable graduates of colleges in good standing, as defined by this act, who have not been in the active practice of their professions for two years next preceding the time of making application for license; also graduates of any reputable college, other than colleges in good standing, as defined by this act, who are of good moral and professional character and conduct, and have served an internship in a good hospital, or who have taken a six months' post-graduate course in some institution having ample clinical facilities, or who have had three years or more of actual practice since graduation. Provided, That all applicants for licenses, of the classes referred to in this section, shall be examined on the following, and such other subjects as the Board may from time to time prescribe: Anatomy and histology, 10 questions; chemistry, 5 questions; etiology and hygiene, 5 questions; physiology, 5 questions; materia medica, 10 questions; therapeutics, 10 questions; pathology and bacteriology, 5 questions; surgery, 10 questions; physical diagnosis, 10 questions; obstetrics, 10 questions; gynecology, 5 questions; practice of medicine, 10 questions; medical ethics and jurisprudence, 5 questions. An average of 75 per cent must be obtained at each examination by each applicant, and not less than 50 per cent on any one subject; the Board shall allow an applicant credit marks of 5 per cent for each five years of active practice. Provided, That such Board may grant licenses without examination to those applicants who have been regular licensed physicians in other States and Territories, having qualifications and requirements equivalent to those required in New Mexico. The President and Secretary of said Board are hereby empowered to administer oaths to applicants and all witnesses and others appearing before said Board, in any application or proceeding provided for herein. And any person making false oath or affidavit before such President or Secretary in any such proceeding shall be deemed guilty of perjury and be subject to the punishment provided for that crime. Whenever any applicant for license shall have been examined as hereinbefore provided, and shall have failed to reach the required percentage in not more than two of any of the subjects hereinbefore designated, the Board may in its discretion allow such applicant another examination on the subjects in which he shall so fail at its next regular meeting, and may at its discretion issue him a temporary license authorizing him to practice medicine in the Territory of New Mexico until such next meeting and until his second examination shall have been passed upon and decided by such Board.

Sec. 5. Every person holding a certificate of said Board of Health shall have the same recorded in a book provided for that purpose in the office of the probate clerk of the county wherein the practitioner resides, within thirty days after said certificate is issued, and the date of recording shall be indorsed on said certificate. Said certificate, or copy of the registration, must be again recorded in any county to which the practitioner may remove permanently. And the fact that no such certificate shall be found recorded in the county where any person practicing or offering to practice medicine shall be accepted by the court as prima facie evidence that no such certificate has been issued, and shall throw the burden of proving that he has a certificate upon the defendant in any suit or prosecution begun against him for the violation of the provisions of this act.

Sec. 6. It is hereby made the duty of this Board to refuse to license any person guilty of immoral, dishonorable or unprofessional conduct, and said Board shall also revoke and annul any license which has been issued by said Board, or any previous Board, upon satisfactory proof being made to said Board, that the holder of said certificate or diploma has been guilty of immoral, dishonorable or unprofessional conduct. The code of ethics as adopted by the American Medical Association shall apply to and govern all physicians and surgeons in this Territory heretofore licensed, or who shall hereafter be licensed, to practice medicine in New Mexico. Twenty days' notice shall be given in writing to the person accused of improper conduct, with a copy of the charge against him, requiring him on a day named to appear before the Board and show cause why his license should not be revoked or cancelled. When any such license has been revoked or cancelled by said Board, the said Board shall send notice in writing under the hand of the Secretary, which notice shall be filed for record and recorded in the book in which the physicians' licenses are recorded, in the office of the Probate Clerk of the county in which the person, whose license has been revoked, resides. Any person whose certificate has been revoked or cancelled by said Board, under the provisions of this act, who shall thereafter practice or attempt or offer to practice medicine in New Mexico shall thereby become guilty of a misdemeanor and shall be punished as provided in Section 9, of this act.

Sec. 7. For the purpose of this act the words "practice of medicine" shall mean to open an office for such purpose or to announce to the public or any individual in any way, a desire or willingness or readiness to treat sick or afflicted, or to investigate or diagnose, or to offer to investigate or diagnose any physical or mental ailment or disease of any person, or to suggest, recommend, prescribe or direct, for the use of any person any drug, medicine, appliance or other agency, whether material or not material, for the cure, relief or palliation of any ailment or disease of the mind or body, or for the cure or relief of any wound, fracture or bodily injury or deformity,

after having received, or with intent of receiving therefor, either directly or indirectly, any bonus, gift or compensation. Provided: That nothing in this act shall be construed to prohibit gratuitous services in cases of emergency, or the domestic administration of family remedies, or women from practicing mid-wifery, and this act shall not apply to surgeons of the United States in the discharge of their official duties; and provided, further, that nothing in this act shall be construed so as to interfere with the practice of osteopathy, optometry or dentistry, as provided for by law.

Sec. 8. Each applicant for a license to practice medicine in New Mexico shall pay the Secretary of this Board a fee of twenty-five dollars (\$25), at the time of making his application.

Sec. 9. Any person who shall practice medicine, or who shall attempt to practice, without first complying with the provisions of this law, and without being the holder of a license entitling him to practice medicine in New Mexico, shall be punished by a fine of not to exceed one hundred dollars (\$100), or imprisonment in the county jail not to exceed ninety days, or by both such fine and imprisonment in the discretion of the court.

Sec. 10. One-half of every fine collected under the provisions of this act shall be paid by the court in which the conviction is had to the Treasurer of the county in which the offense was committed, to be by him placed to the credit of the common school fund of such county. The other half of all such fines and all fees to be provided to be paid shall go to and be the property of said Board, and shall be by the Treasurer of said Board kept in some bank designated by said Board. He shall give bond to the Board in the sum of one hundred dollars (\$100) conditioned for his duties as Treasurer, and that as Treasurer, and that he shall pay any and all sums of money received by him as such upon the proper order thereof. Such bond shall be given by some fidelity or surety company authorized to do business in this Territory, and the premiums paid therefor, shall be paid by the Board as one of the necessary expenses. All the expenses of the members of said Board necessarily and properly incurred in attending the sessions of said Board, and for the necessary supplies, shall be paid out of the said funds of said Board upon the order of the President, countersigned by the Secretary of the said Board. The Treasurer of the Board shall keep a correct and itemized account of all moneys received and disbursed, and shall make a report to the Board of each meeting. The Secretary of said Board is required to report the doings and proceedings of said Board together with the amount of all moneys by it received and disbursed and on what account, with items, on the the first day of December in each year, to the Governor of New Mexico.

Sec. 11. Said Board is hereby authorized and empowered to make all necessary rules and regulations for carrying out the provisions of this act.

Sec. 12. An act of the Thirty-fifth Legislative Assembly of the Territory of New Mexico, approved March 12, 1903, entitled "An Act to Regulate the Practice of Medicine in New Mexico," and for all acts and parts of acts in conflict herewith are hereby repealed and this act shall be in full force and effect from and after its passage.

## NEW YORK.

### CAPITAL, ALBANY.

Population of State, 8,067,308.  
(State Census, 1905.)

Number of Physicians, 13,937.

Hendrick Hudson, an English navigator in the service of the Dutch East India Company, was the first European, who (in 1609) entered the Bay of New York and explored the river now bearing his name. Four years later the Dutch established trading posts on Manhattan Island and below Albany. In 1614, the entire colony received the name of "New Netherlands," but in 1664 the Duke of York appeared with a squadron before New Amsterdam and demanded its surrender. Governor Stuyvesant had to yield and the colony received the name of New York. The Dutch retook it in 1673, but in the following year it was finally ceded to the English by the treaty of Westminster. The part borne by New York in the Revolution is familiar history; many famous battles of that struggle were fought within her borders. On April 20, 1777, a state constitution was adopted and the state ratified the United States constitution, July 26, 1788. New York extends from 71 degrees 51 minutes to 79 degrees 47 minutes 25 seconds west longitude, and from 40 degrees 29 minutes 40 seconds to 45 degrees 0 minutes 42 seconds north latitude, and is bounded on the north and west by Canada, from which it is separated by the St. Lawrence river, Lake Ontario, Niagara river and Lake Erie; on the south by New Jersey and Pennsylvania, and on the east by Connecticut, Massachusetts and Vermont. The climate, though marked by great extremes, is on the whole moderate and salubrious. The Adirondack region, with its long and severe winters, is the coldest part of the state and has a mean annual temperature of less than 40 degrees. The mean annual temperature in the central portions is from 44 to 48 degrees, and in the extreme southern 50 degrees. The rainfall varies from 32 inches in the St. Lawrence valley to 44 inches in the Lower Hudson

valley. The interior parts of the state receive about 40 inches. New York was formerly covered with forests, and these are still extensive, although the state is one of the most densely populated and best cultivated in the Union. The Adirondack Mountains are timbered with coniferous trees and poplars. In the other portions the most prevalent are deciduous trees, as the oak, maple, hickory, chestnut, elm, linden, beech, sycamore and cedar. The surface is greatly diversified and includes rolling plateaus, level valleys and lofty mountain chains. The principals rivers are the Hudson, which rises in the Adirondacks, and pursuing a southerly course empties into New York Bay, its total length is about 300 miles and for the last 150 it is navigable for the largest vessels; the St. Lawrence, which washes a portion of the northern boundary and with its numerous tributaries drains and irrigates that portion of the state; the Oswego, Niagara, Allegheny, Susquehanna, Black, Mohawk and Delaware. Its mountain system includes the northern terminus of the Alleghenian Blue Ridge in the Highlands of the Hudson, and the Adirondack groups in the northeastern angle of the state. There are over 1,300 lakes.

This is a magnificent agricultural state, producing in abundance everything known to its latitude. It is the most important state in the Union in the extent and value of dairy farming and nurseries. The fruit-growing interests are very large, especially apples, pears and grapes. The mineral treasures of New York are great, although they neither include coal nor the precious metals. Iron ores lead, gypsum, marble, sandstone, limestone, bluestone and granite are plentiful. Oil is found in abundance in the western portion. The salt springs in Onondaga, Orleans, Erie and Genesee counties yield over 12,000,000 bushels annually of pure salt. The manufacturing interests of this the "Empire State" of the Union are most extensive, and the state ranks first in the value of its manufactured products. CLIFTON SPRINGS, N. Y.

Founded in 1850 by the Late Henry Foster, M. D.

**Our Main Building**, of which a picture is here shown, is absolutely Fire-proof and thoroughly up-to-date in all of its appointments; is heated by steam; provided with elevators, electric bells, and both gas and electric lights.

**Our Medical Staff** consists of eleven physicians (9 men and 2 women), regular graduates of the principal schools of the East, and experienced in Sanitarium practice.

**The Surgical Department** is equipped with all the latest appliances in hospital outfit, and is under the care of an eminently successful surgeon.

**The Sulphur Springs**, because of the proportions in which are combined the essential compounds, are classed with the **leading remedial** springs of the world.

**The Baths**, magnificently furnished in marble and tile, are complete in every detail. **The Nauheim Baths** for heart trouble are unsurpassed in this country.

**The Treatment Rooms** are equipped to supply the most helpful methods known to medical science, including electricity in all its forms.

**The Nurses**, supplementing the work of the Medical Staff, is a large corps of trained nurses and bath attendants.

**The Efficiency** of the departments prove to any investigator that our facilities for Medical and Surgical Treatments are of the very best.

No Tubercular, Insane or Epileptic Cases received.

# Clifton Springs Sanitarium

CLIFTON SPRINGS, N. Y.

Founded in 1850 by the Late Henry Foster, M. D.

**Distinctly an Ideal Sanitarium.**

**Beautiful for Situation, Healthful Surroundings, Complete in Equipment.**

**Renowned for Its Liberal Terms.**

Physicians are invited to visit the Sanitarium that they may know from personal observation that our facilities for care and treatment are all that we claim them to be.

The Dining Room, spacious and well lighted by large windows on three sides of the room, is very attractive. The cuisine is of the best. There are no diet fads here. Plenty of good food well prepared and served is fully appreciated by our patrons.

The Parks. We have the largest park system of any like institution in this country. A beautiful stream winds its way through these sixty acres of old forest trees, and good walks make all parts accessible even to those in wheel chairs.

**Location.** From the map above it will be readily seen that we are situated in the most delightful part of New York State on the Auburn branch of the New York Central & Hudson River and on the main line of the Lehigh Valley Railways. We are thus in direct communication with the principal cities of the state, and through them with the whole country. Direct sleepers from New York, Philadelphia, Chicago and intermediate points.

No Tubercular, Insane or Epileptic Cases received.

Write for Illustrated booklet and full particulars.

## MEDICAL LAW OF NEW YORK.

Laws of New York, 1907, ch. 344, Signed May 13, 1907.

Section 1. Definitions as used in this act:

1. The Education Department means the Education Department of the State of New York, as provided for by chapter 40 of the laws of 1904.
2. University means University of the State of New York.
3. Regents means Board of Regents of the University of the State of New York.
4. Board means the Board of Medical Examiners of the State of New York.
5. Medical Examiner means a member of the Board of Medical Examiners of the State of New York.
6. Medical school means any medical school, college, or department of a university, registered by the Regents as maintaining a proper medical standard as legally incorporated.
7. The practice of medicine is defined as follows: A person practices medicine within the meaning of this act, except as hereinafter stated, who holds himself out as being able to diagnose, treat, operate, or prescribe for any human disease, pain, injury, deformity or physical condition, and who shall either offer or undertake, by any means or method, to diagnose, treat, operate, or prescribe for any human disease, pain, injury, deformity, or physical condition.

POLK'S MEDICAL REGISTER

New York

8. Physician means a practitioner of medicine.

Sec. 2. Qualifications: No person shall practice medicine, unless registered and legally authorized prior to September 1, 1891, or unless licensed by the Regents and registered under article 8, of chapter 661, of the laws of 1893, and acts amendatory thereto, or unless licensed by the Regents and registered as required by this act; nor shall any person practice under this act who has ever been convicted of a felony by any court, or whose authority to practice is suspended or revoked by the Regents on recommendation of the State Board. The conviction of a felony shall include the conviction of any offense which if committed within the State of New York would constitute a felony under the laws thereof.

Sec. 3. The State Board of Medical Examiners: There shall be a State Board of Medical Examiners of nine members, who shall be appointed by the Regents and who shall hold office for three years from August 1 of the year in which appointed. In constituting the first Board, however, to be appointed under this act, the Regents shall designate three members to serve for one year from August 1, 1907; three members to serve two years from August 1, 1907; and three members to serve for the full term of three years from August 1, 1907. Thereafter the Regents shall annually appoint three members to fill the vacancies caused by expiration of term of office, and may at any time fill vacancies on the Board caused by death, resignation, or removal from office. No person shall be appointed a member of the Board of Medical Examiners who is not eligible to receive a license to practice from the Regents in accordance with the provisions of this act or of chapter 661 of the laws of 1893, and acts amendatory thereof, and who has not been in practice in this State for at least five years prior to date of appointment. The Regents may remove any member of the Board of Examiners for misconduct, incapacity or neglect of duty. The Regents shall appoint a Secretary to the Board of Examiners, who shall not be a member of the board, and who shall hold office during the pleasure of the Regents and who shall receive an annual compensation of \$4,000, payable from the fees received under this act. The Secretary shall be a duly licensed physician.

Sec. 4. Certificate of Appointment; Oath; Powers: Every Medical Examiner shall receive a certificate of appointment from the Regents and before beginning his term of office shall file with the Secretary of State the constitutional oath of office. The Board, or any committee thereof, may employ counsel, shall have the power to compel the attendance of witnesses, and may take testimony and proofs concerning all matters within its jurisdiction. The Board may, subject to the Regents' approval, make all bylaws and rules not inconsistent with law needed in performing its duty; but no bylaw or rule by which more than a majority vote is required for any specified action by the board shall be amended, suspended or repealed by a smaller vote than that required for action thereunder.

Sec. 5. Expenses: The fees derived from the operation of this act shall be paid into the State treasury, and the Legislature shall annually appropriate therefrom for the Education Department an amount sufficient to pay all proper expenses incurred pursuant to this act.

Sec. 6. Officers; Meetings; Quorum; Committees: The Board shall annually elect from its members a President and Vice-President for the academic year, and shall hold one or more meetings each year pursuant to call of the Regents. At any meeting a majority shall constitute a quorum; but questions prepared by the board may be grouped and edited, or answer papers of candidates may be examined and marked by committees duly authorized by the Board and approved by the Regents.

Sec. 7. Admission to Examinations: The Regents shall admit to examination any candidate who pays a fee of \$25 and submits evidence, verified by oath, and satisfactory to the Regents, that he

1. Is more than 21 years of age.
2. Is of good moral character.

3. Had prior to beginning the second year of medical study the general education required preliminary to receiving the degree of bachelor or doctor of medicine in this State.

4. Has studied medicine not less than four school years, including four satisfactory courses of at least seven months each, in four different calendar years in a medical school registered as maintaining at the time a standard satisfactory to the Regents. New York medical schools and New York medical students shall not be discriminated against by the registration of any medical school out of the State whose minimum graduation standard is less than that fixed by statutes for New York medical schools. The Regents may, in their discretion, accept as the equivalent for any part of the third and fourth requirement, evidence of five or more years' reputable practice, provided that such substitution be specified in the license, and, as the equivalent of the first year of the fourth requirement, evidence of graduation from a registered college course, provided that such college course shall have included not less than the minimum requirements prescribed by the Regents for such admission to advanced standing. The Regents may also in their discretion admit conditionally to the examination in anatomy, physiology, hygiene, sanitation and chemistry, applicants 19 years of age certified as having studied medicine not less than two years, including two satisfactory courses of at least seven months each, in two different calendar years, in a medical school registered as maintaining at the time a satisfactory standard, provided that such applicants meets the second and third requirements.

5. Has either received the degree of bachelor or doctor of medicine from some registered medical school, or a diploma or license conferring full right to practice medicine in some foreign country unless admitted conditionally to the examinations as specified above, in which case all qualifications, including the full period of study, the medical degree and the final examinations in surgery, obstetrics, gynecology, pathology, including bacteriology, and diagnosis must be met. The degree of bachelor or doctor of medicine shall not be conferred in this State before the candidate beginning the first annual medical course conferring it the certificate of the Regents that before entering the first annual medical course counted toward the degree, unless matriculated conditionally as hereinafter specified, he had either graduated from a registered college or satisfactorily completed a full course in a registered academy or high

school; or had a preliminary education considered and accepted by the Regents as fully equivalent; or held a Regents' medical student certificate; or passed Regents' examinations securing 60 academic counts, or their full equivalent, before beginning the first annual medical course counted toward the degree, unless admitted conditionally as hereinafter specified. A medical school may matriculate conditionally a student deficient in not more than one year's academic work of 15 counts of the preliminary education requirement, provided the name and deficiency of each student so matriculated be filed at the Regents' office within three months after matriculation, and that the deficiency be made up before the student begins the second annual medical course counted toward the degree.

6. Where the application be for a license to practice osteopathy, the applicant shall produce evidence that he has studied osteopathy not less than three years, including three satisfactory courses of not less than nine months each in three different calendar years in a college of osteopathy maintaining at the time a standard satisfactory to the Regents. After 1910 the applicant for a license to practice under this act shall produce evidence that he has studied not less than four years, including four satisfactory courses of not less than seven months each in four different calendar years in a college maintaining at the time a standard satisfactory to the Regents.

Sec. 8. Questions: The Board shall submit to the Regents, as required, lists of suitable questions for thorough examination in anatomy, physiology, hygiene, sanitation, chemistry, surgery, obstetrics, gynecology, pathology, including bacteriology and diagnosis. From these lists the Regents shall prepare question papers for all these subjects, which at any examination shall be the same for all candidates, except that the examination may be divided as provided in section 7.

Sec. 9. Examinations and Reports: Examinations for licenses shall be given in at least four convenient places in this State and at least four times annually, in accordance with the Regents' rules, and shall be exclusively in writing and in English. Each examination shall be conducted by a Regents Examiner, who shall not be one of the Medical Examiners. At the close of each examination the Regents Examiner in charge shall deliver the questions and answer papers to the board or its duly authorized committee, who, without unnecessary delay, shall examine and mark the answers and transmit to the Regents an official report, signed by its President and Secretary, stating the standing of each candidate in each branch, his general average and whether the Board recommends that a license be granted. Such report shall include the questions and answers and shall be filed in the public records of the university. If a candidate fails on first examination, he may, after not less than six months' further study, have a second examination without fee. If the failure is from illness or other cause satisfactory to the Regents they may waive the required six months' study.

Sec. 10. Licenses: On receiving from the State Board an official report that an applicant has successfully passed the examinations and is recommended for license, the Regents shall issue to him a license to practice according to the qualifications of the applicant. Every license shall be issued by the University under seal and shall be signed by each acting Medical Examiner and by the officer of the University who approved the credential which admitted the candidate to examination, and shall state that the licensee has given satisfactory evidence of fitness as to age, character, preliminary and medical education and all other matters required by law, and that after full examination he has been found properly qualified to practice. Applicants examined and licensed by other State Examining Boards registered by the Regents as maintaining standards not lower than those provided by this article and applicants who matriculated in a New York State medical school before June 5th, 1890, and who received the degree of doctor of medicine from a registered medical school before August 1st, 1895, may without further examination, on payment of \$25 to the Regents and on submitting such evidence as they may require, receive from them an indorsement of their licenses or diplomas conferring all rights and privileges of a Regents' license issued after examination. The Commissioner of Education may in his discretion on the approval of the Board of Regents indorse a license or diploma of a physician from another State provided the applicant has met all the preliminary and professional qualifications required for earning a license on examination in this State, has been in reputable practice for a period of ten years, and has reached a position of conceded eminence and authority in his profession. If any person, whose registration is not legal because of some error, misunderstanding or unintentional omission, shall submit satisfactory proof that he had all requirements prescribed by law at the time of his imperfect registration and was entitled to be legally registered, he may, on unanimous recommendation of the State Board of Medical Examiners, receive from the Regents under seal a certificate of the facts which may be registered by any county clerk and shall make valid the previous imperfect registration. Before any license is issued it shall be numbered and recorded in a book kept in the Regents' office, and its number shall be noted in the license; and a photograph of the licensee filed with the records. This record shall be open to public inspection, and in all legal proceedings shall have the same weight as evidence that is given to a record of conveyance of land.

Sec. 11. Registry: Revocation of License; Annulment of Registry: Every license to practice medicine shall, before the licensee begins practice thereunder, be registered in a book kept in the clerk's office of the county where such practice is to be carried on, with name, residence, place and date of birth, and source, number and date of his license to practice. Before registering, each licensee shall file, to be kept in a bound volume in the County Clerk's office, an affidavit of the above facts, and also that he is the person named in such license, and had, before receiving the same, complied with all requirements as to attendance, terms and amount of study and examinations required by law and the rules of the University as preliminary to the conferment thereof; that no money was paid for such license, except the regular fees paid by all applicants therefor; that no fraud, misrepresentation or mistake in any material regard was employed by any one or occurred in order that such license should be conferred. Every license, or if lost a copy thereof legally certified so as to be admissible as evidence, or a duly attested transcript of the record of its confer-

ment, shall, before registering, be exhibited to the county clerk, who, only in case it was issued or indorsed as a license under seal by the Regents, shall indorse or stamp on it the date and his name preceded by the words: "Registered as authority to practice medicine in the clerk's office of ..... county." The clerk shall thereupon give to every physician so registered a transcript of the entries in the register with a certificate, under seal that he has filed the prescribed affidavit. The licensee shall pay to the county clerk a total fee of \$1 for registration, affidavit and certificate. The Regents shall have power at any and all times to inquire into the identity of any person claiming to be a licensed or registered physician and after due service of notice in writing, require him to make reasonable proof, satisfactory to them, that he is the person licensed to practice medicine under the license by virtue of which he claims the privilege of this act. When the Regents find that a person claiming to be a physician, licensed under this act, is not in fact the person to whom the license was issued, they shall reduce their findings to writing and file them in the office of the clerk of the county in which said person resides or practices medicine. Said certificate shall be prima facie evidence that the person mentioned therein is falsely impersonating a practitioner or a former practitioner of a like or different name. The Regents may revoke the license of a practitioner of medicine, or annul his registration, or do both, in any of the following cases:

a A practitioner of medicine who is guilty of any fraud or deceit in his practice, or who is guilty of a crime or misdemeanor, or who is guilty of any fraud or deceit by which he was admitted to practice; or

b Is an habitual drunkard or habitually addicted to the use of morphine, opium, cocaine, or other drugs having a similar effect; or

c Who undertakes or engages in any manner or by any means or means whatsoever, to procure or perform any criminal abortion as the same is defined by section 294 of the penal code; or

d Who offers or undertakes by any manner or means to violate any of the provisions of section 318 of the penal code.

e Proceedings for revocation of a license or the annulment of registration shall be begun by filing a written charge or charges against the accused. These charges may be preferred by any person or corporation, or the Regents may on their own motion direct the executive officer of the Board of Regents to prefer said charges. Said charges shall be filed with the executive officer of the Board of Regents, and a copy thereof filed with the secretary of the board of Medical Examiners. The board of Medical Examiners, when charges are preferred, shall designate three of their number as a committee to hear and determine said charges. A time and place for the hearing of said charges shall be fixed by said committee as soon as convenient, and a copy of the charges, together with a notice of the time and place when they will be heard and determined, shall be served upon the accused or his counsel, at least 10 days before the date actually fixed for said hearing. Where personal service or service upon counsel can not be effected, and such fact is certified on oath by any person duly authorized to make legal service, the Regents shall cause to be published for at least seven times, for at least 20 days prior to the hearing, in two daily papers in the county in which the physician was last known to practice, a notice to the effect that at a definite time and place a hearing will be had for the purpose of hearing charges against the physician upon an application to revoke his license. At said hearing the accused shall have the right to cross-examine the witnesses against him and to produce witnesses in his defense, and to appear personally or by counsel. The said committee shall make a written report of its findings and recommendations, to be signed by all its members, and the same shall be forthwith transmitted to the executive officer of the Board of Regents. If the said committee shall unanimously find that said charges, or any of them, are sustained, and shall unanimously recommend that the license of the accused be revoked or his registration be annulled, the Regents may thereupon in their discretion, revoke said license or annul said registration, or do both. If the Regents shall annul such registration, they shall forthwith transmit to the clerk of the county or counties in which said accused is registered as a physician, a certificate under their seal certifying that such registration has been annulled, and said clerk shall, upon receipt of said certificate, file the same and forthwith mark said registration "Annulled." Any person who shall practice medicine after his registration has been marked "Annulled" shall be deemed to have practiced medicine without registration. Where the license of any person has been revoked, or his registration has been annulled as herein provided, the Regents may, after the expiration of one year, entertain an application for a new license, in like manner as original applications for licenses are entertained; and upon such new application they may in their discretion, exempt the applicant from the necessity of undergoing any examination.

Sec. 12. Registry in Another County: A practicing physician having registered a lawful authority to practice medicine in one county, and removing such practice or part thereof to another county, or regularly engaging in practice or opening an office in another county shall show or send by registered mail to the clerk of such other county, his certificate of registration. If such certificate clearly shows that the original registration was of an authority issued under seal by the Regents, or if the certificate itself is indorsed by the Regents as entitled to registration, the clerk shall thereupon register the applicant in the latter county, on receipt of a fee of 25 cents, and shall stamp or indorse on such certificate, the date and his name preceded by the words, "Registered also in ..... county," and return the certificate to the applicant.

Sec. 13. Certificate Presumptive Evidence; Unauthorized Registration and License Prohibited. Every unrevoked certificate and indorsement of registry, made as provided in this article, shall be presumptive evidence in all courts and places, that the person named therein is legally registered. Hereafter no person shall register any authority to practice medicine unless it has been issued or indorsed as a license by the Regents. No such registration shall be valid unless the authority registered

constituted, at the time of registration, a license under the laws of the State then in force. No diploma or license conferred on a person not actually in attendance at the lectures, instruction and examinations of the school conferring the same, or not possessed at the time of its conferment of the requirements then demanded of medical students in this State as a condition of their being licensed so to practice, and no registration not in accordance with this article shall be lawful authority to practice medicine, nor shall the degree of doctor of medicine be conferred *causa honoris* or *ad eundem* nor if previously conferred shall it be a qualification for such practice.

**Sec. 14. Construction of This Article:** This article shall not be construed to affect commissioned medical officers serving in the United States army, navy or marine hospital service, while so commissioned; or any one while actually serving without salary or professional fees on the resident medical staff of any legally incorporated hospital; or any legally registered dentist exclusively engaged in practicing dentistry; or any person or manufacturer who mechanically fits or sells lenses, artificial eyes, limbs, or other apparatus or appliances, or is engaged in the mechanical examination of eyes, for the purpose of constructing or adjusting spectacles, eyeglasses and lenses; or any lawfully qualified physician in other states or countries meeting legally registered physicians in this State in consultation; or any physician residing on a border of a neighboring state and duly licensed under the laws thereof to practice medicine therein, whose practice extends into this State, and who does not open an office or appoint a place to meet patients or receive calls within this State; or any physician duly registered in one county called to attend isolated cases in another county, but not residing or habitually practicing therein; or the furnishing of medical assistance in case of emergency; or the domestic administration of family remedies; or the practice of chiropody; or the practice of the religious tenets of any church. This article shall be construed to repeal all acts or parts of acts authorizing conferment of any degree in medicine *causa honoris* or *ad eundem* or otherwise than on students duly graduated after satisfactory completion of a preliminary medical course not less than that required by this article as a condition of license. It is further provided that any person who shall be actively engaged in the practice of osteopathy in the State of New York on the date of the passage of this act, and who shall present to the Board of Regents satisfactory evidence that he is a graduate in good standing of a regularly conducted school or college of osteopathy within the United States which at the time of his or her graduation required a course of study of two years or longer, including the subjects of anatomy, physiology, pathology, hygiene, chemistry, obstetrics, diagnosis and the theory and practice of osteopathy, with actual attendance of not less than 20 months, which facts shall be shown by his or her diploma and affidavit, shall upon application and payment of \$10 be granted, without examination, a license to practice osteopathy, provided application for such license be made within six months after the passage of this act. A license to practice osteopathy shall not permit the holder thereof to administer drugs or perform surgery with the use of instruments. Licenses to practice osteopathy shall be registered in accordance with the provisions of this act, and the word osteopath be included in such registration; and such license shall entitle the holder thereof to the use of the degree D. O., or doctor of osteopathy.

**Sec. 15. Penalties and Their Collection:** Any person who, not being then lawfully authorized to practice medicine within this State and so registered according to law, shall practice medicine within this State without lawful registration or in violation of any provision of this article; and any person who shall buy, sell, or fraudulently obtain any medical diploma, license, record, or registration, or who shall aid or abet such buying, selling, or fraudulently obtaining, or who shall practice medicine under cover of any medical diploma, license, record, or registration illegally obtained, or signed, or issued unlawfully or under fraudulent representations, or mistake of fact in a material regard, or who, after conviction of a felony, shall attempt to practice medicine, or shall so practice, and any person who shall in connection with his name use any designation tending to imply or designate him as a practitioner of medicine within the meaning of this act without having registered in accordance therewith, or any person who shall practice medicine or advertise to practice medicine under a name other than his own, or any person not a registered physician who shall advertise to practice medicine, shall be guilty of a misdemeanor. Any person who shall practice medicine under a false or assumed name, or who shall falsely personate another practitioner or former practitioner of a like or different name, shall be guilty of a felony. When any prosecution under this act, or under sections 318, 294, 295, 297, 405b of the penal code, and any amendments thereto, is made on the complaint of any incorporated medical society of the State, or any county medical society entitled to representation in a State society, any fines collected shall be paid to the society making the complaint, and any excess of the amount of fines so paid over the expense incurred by the said society in enforcing the medical laws of this State, shall be paid at the end of the year to the county treasurer.

**Sec. 16.** Article 8 of chapter 661 of the laws of 1893, chapter 398 of the laws of 1895, chapter 636 of the laws of 1895, chapter 111 of the laws of 1896, chapter 646 of the laws of 1901, and chapter 243 of the laws of 1902, are hereby repealed.

**Sec. 17.** This act shall take effect immediately.

and registered as required by this law. Felons are debarred from practice and the License on Examination. On evidence of fitness as to age, character, preliminary and medical education, the Department on official report from the Board that an applicant has successfully passed the examination, issues a license which when registered in the county of practice, entitles the holder to practice medicine. Fee \$25.

**License by Indorsement.** Applicants examined and licensed by other state examining boards registered by the Department as maintaining standards not lower than those provided by the statute may without examination receive an indorsement of their license conferring all rights and privileges of a license after examination. Fee \$25. Under this provision of the statute the licenses of the New Jersey and Michigan state examining boards earned on examinations are indorsed. Matriculates of New York State medical schools before June 5, 1890, that received the degree of M. D. from a registered medical school before August 1, 1895, may without examination receive an indorsement of their diplomas conferring all rights and privileges of a license after examination. Fee \$25.

**License on Approval.** The Commissioner may on approval of the Regents indorse the diploma or license of a physician from another state provided the applicant (1) has met all the preliminary and professional qualifications required for earning a license on examination in this State; (2) has been in reputable practice for 10 years; (3) has reached a position of conceded eminence and authority in his profession. Fee \$25.

**License on Recommendation.** Any person whose registration is not legal because of error may on satisfactory proof that he was entitled to be legally registered on unanimous recommendation of the Board, receive a certificate of the facts which may be registered by a county clerk and make valid the previous imperfect registration. No fee.

Before beginning the second annual medical course counted toward the degree, or two years before the date of the degree, matriculates in a medical school were required

1. Prior to January 1, 1896, to have (12) 15 academic counts in Regents examinations or evidence of the completion of a registered three-year high school course;
2. Prior to January 1, 1897, to have (24) 30 academic counts in Regents examinations, or evidence of the completion of a registered three-year high school course.

All matriculates after January 1, 1897, are required to have (48) 60 academic counts or evidence of the successful completion of a four-year course in a registered high school before beginning the first annual medical course counted toward the degree, unless admitted conditionally, when the deficiency (not more than one year of high school work or (12) 15 counts), has to be made up before the student begins the second annual medical course counted toward the degree. The Department accepts as the equivalent for the general preliminary education and one year of the professional requirements, evidence of five or more years' reputable practice, but this substitution is specified in the license. Evidence of graduation from a registered college course in lieu of one year of study in a medical school permitted by the statute is at present inoperative, as the minimum requirements for such admission to advanced standing have not been determined.

**License to Practice Osteopathy:** A license to practice osteopathy does not permit the holder to administer drugs or to perform surgery with the use of instruments. The license must be registered in the clerk's office of the county where such practice is to be carried on and the word "osteopath" to be included in such registration. Such license shall entitle the holder to the use of the degree D. O. or doctor of osteopathy.

1. Without examination. Application for this license must be made within six months; i. e., prior to November 13, 1907. Evidence must be afforded (a) that the applicant was actively engaged in the practice of osteopathy in the State of New York on or before May 13, 1907; (b) of graduation in good standing from a regularly conducted school or college of osteopathy within the United States, which at the date of graduation required a course of study of two years or longer, including the subjects of anatomy, physiology, pathology, hygiene, chemistry, obstetrics, diagnosis, theory and practice of osteopathy; (c) of actual attendance of not less than twenty months; (d) the diploma of a school or other evidence must accompany the applicant's affidavit; (f) fee, \$10.

2. On examination. The applicant for this license must procure evidence of the study of osteopathy in a school of osteopathy maintaining at the time a standard satisfactory to the Regents (a) prior to January 1, 1910, for not less than three years, including three satisfactory courses of not less than nine months each in three different calendar years; (b) subsequent to January 1, 1910, for not less than four years, including four satisfactory courses of not less than seven months each in four different calendar years; (c) fee \$25.

Formal application for the registration of a school of osteopathy should be made to the Regents by the dean or executive officer of the school.

The qualifications of preliminary education for entrance to a college of osteopathy are the same as for all other medical schools, and on examination for license to practice medicine is the same as for any other school.

**Professional Requirements:** An applicant for admission to the licensing examination must have studied medicine not less than four school years (three, for matriculates prior to January 1, 1898, who graduated prior to January 1, 1902) including four satisfactory courses of at least seven months each in four different calendar years in a medical school registered by the Department as maintaining at the time a satisfactory standard, and must afford evidence of possessing the degree of bachelor or doctor of medicine from a registered medical school. Students can not begin the first annual medical course counted toward the degree of bachelor or doctor of medicine in this State till they have filed with the institution a medical student certificate issued by the Department, but the medical school may matriculate conditionally a student deficient in not more than one year's academic work or (12) 15 counts of the required preliminary education provided the name and deficiency of each student so matriculated be filed at the Department within three months after matriculation, and

that the deficiency be made up before the student begins the second annual medical course counted toward the degree, but students that matriculated in a New York medical school before June 5, 1890, or before May 13, 1895, as having entered before June 5, 1890, on the prescribed three years' study of medicine, are exempt from this preliminary educational requirement toward the degree, but not for entrance on the licensing examination.

**Preliminary Requirements:** The preliminary requirements for admission to registered medical schools or the licensing examination were, for matriculates:

1. Before May 9, 1893, Regents' examinations [see Handbook 3, Examinations] in (20) counts allowing 10 for the preliminaries, not including reading and writing, 12½:

2. Before May 13, 1895, Regents' examinations in arithmetic, elementary English, geography, spelling, United States history, English composition and physics or any (50) counts allowing 14 for the preliminaries, 45:

3. Before January 1, 1896, Regents' examinations in subjects aggregating (12) 15 academic counts:

4. Before January 1, 1897, Regents' examinations in subjects aggregating (24) 30 academic counts or evidence of the successful completion of three years' work in a registered high school:

5. After January 1, 1897, Regents' examinations in subjects aggregating (48) 60 academic counts or their full equivalent, evidence of the successful completion of three years' work in a registered high school before August, 1896, or of four years after that date; the successful completion of one full year's work in a college or university registered by the Department as maintaining a satisfactory standard; evidence of work in a registered institution or from the government of any state or country (other than New York State) which represents the completion of a course of study registered by the Department as equivalent to graduation from a New York secondary school [see Handbook 23, Equivalent Credentials].

In March, 1898, the requirements for the medical student certificate were modified to permit the acceptance of certificates of work in registered schools; to permit of cumulative credit, and to permit of the dating back of certificates earned in examination. Since February 1, 1902, the medical students' certificates have shown on their face the subjects and their value. In 1906 the value of the "count" changes without affecting statutory requirements [see Handbooks 3 and 23], but the minimum standing required in examination on academic subjects for professional credentials is 75%. On April 26, 1906, the Regents amended the rules so that a medical student certificate may be earned by passing in the Department's examinations: English, three years, 10 counts; mathematics, two years (algebra and geometry), 10 counts; Latin, two years (grammar, composition and Cæsar), 10 counts; science, two years (physics and chemistry), 10 counts; history, one year (American history and civics), 5 counts.

They also outlined an approved secondary course for admission to medical schools, viz:

Duplicates of original credentials, certificates and diplomas are issued on satisfactory evidence of loss or destruction or of filing with higher institutions. The evidence of loss or destruction is a certificate of fact and date verified by affidavit and by the testimony of a disinterested party. The evidence of filing with a higher institution is a certificate of the executive officer under seal of the institution.

**Examinations:** The examinations are conducted by the Department and answer papers are read and marked by the Board, who know the candidates only by number. The subjects of the licensing examinations are (1) anatomy; (2) physiology and hygiene; (3) chemistry; (4) surgery; (5) obstetrics; (6) pathology and diagnosis; (7) therapeutics, practice and materia medica. After August 1, 1907, under the new law (1) anatomy; (2) physiology; (3) hygiene; (4) sanitation; (5) chemistry; (6) surgery; (7) obstetrics; (8) gynecology; (9) pathology (including bacteriology); (10) diagnosis. The minimum standing required in each subject is 75%.

**Partial Examinations:** Applicants 19 years of age certified as having studied medicine not less than two full years in a registered medical school may be admitted conditionally to the examinations in (1) anatomy; (2) physiology and hygiene, and (3) chemistry. After August 1, 1907, under the new law (1) anatomy; (2) physiology; (3) hygiene; (4) sanitation; (5) chemistry.

Questions and written answers must be in the English language. Candidates of the full examinations failing in one subject with a general average of 80% in the others may be re-examined in that subject in any regular examination; failing in one subject with a lower average, or in two or more subjects, may be admitted to a subsequent examination on original fee after six months have elapsed, and must then take the examination in all subjects. Those taking the partial examinations are required to pass all subjects of a group, or if they fail in one subject to retake all

\*These subjects should be required of all students preparing to enter professional schools.

# Greylock Rest

In the Heart of the Berkshire Hills

**CONDUCTED BY THE SISTERS OF PROVIDENCE**

Easy of access. Home Comforts. Trained Nurses. A most desirable resort for the care and treatment of nervous, chronic and convalescent invalids. Complete modern hydrotherapeutic and electrotherapeutic outfits and other modern and valuable means and appliances for restoring health. Insane and other unpleasant forms of invalidism are not desired and are not received. Physicians who desire a safe and comfortable home for nervous cases, convalescents from surgical operations, or others requiring sanatorium treatment will be given full information, and cases will remain under their own personal care if desired. Address applications to Sister Superior.

MANY physicians send their patients to us for the painless extraction of teeth through the use of Nitrous Oxide Anaesthesia.

"WE do no other dental work."

Our improved facilities and long experience enable us to do the work in the most approved manner, with absolute safety, and without any of the disastrous after effects so often attending the use of Chloroform, Ether, or other anaesthetics.

DURING our long experience in the use of this anaesthetic (extracting from fifty to one hundred teeth daily) we have never met with an accident of any kind, or caused the patient to suffer to an appreciable degree.

WE have administered this anaesthetic to the most nervous patients, those troubled with heart disease, consumption, and those in a delicate condition, in every case the patient quickly recovering from its effects.

**VISIT THE REED SCHOOL FOR THE CURE OF STAMMERING.** This is the only school of the kind in the country which welcomes visitors at any time during school hours. Positively nothing to hide. No secrets, no "method" of which we are ashamed. When you come to Detroit be sure and visit the Reed School. You may be asked your advice as to treatment for the cure of stammering some day. SEE WHAT WE OFFER. Booklet sent on application. **REED SCHOOL, 371 Hubbard Av., Detroit, Mich.** (See other right top lines.)
